

Addressing Violence in Our Communities: Kaiser Permanente's Unique Approach

Why do we invest in violence prevention?

As a health plan and hospital system we recognize violence as a public health issue that affects us all.

- **Homicide:** 2nd leading cause of death for California youth ages 15 to 24.
- **Chronic disease:** Higher rates linked to childhood exposure to trauma.
- **1702 youth:** came to our emergency departments in 2012. 92% were assault victims; 8% were abuse victims.

To maximize our impact , our unique approach:

- Engages a wide range Kaiser Permanente assets, including our clinical expertise and data to focus on prevention.

- Provides care and services to help people recover and heal.
- Partners with and invests in community organizations.
- Provides assistance programs to our physicians, care professionals, and employees.
- Offers youth programs including Educational Theatre and summer internships promote healthy alternatives to violence.

Our goals:

Strategies:

We've provided more than \$10 million in funding for community programs and evidence-based strategies such as:

- Hospital based, emergency department interventions.
- Health care delivery improvements.
- Neighborhood revitalization (safe public places).
- School based health centers.
- Targeted gang and offender interventions.
- After-school programs and youth centers.
- Social and emotional skill building.

Violence is preventable.
