## **I. Introduction and Background**

### **A. About Kaiser Permanente**

Kaiser Permanente is an integrated health care delivery system comprised of Kaiser Foundation Hospitals, Kaiser Foundation Health Plan, and physicians in the Permanente Medical Groups. For 75 years, Kaiser Permanente has been committed to shaping the future of health and health care — and helping our members, patients, and communities experience more healthy years. We are recognized as one of America’s leading health care providers and nonprofit health plans.

Kaiser Permanente is committed to helping shape the future of health care. Founded in 1945, Kaiser Permanente has a mission to provide high- quality, affordable health care services and to improve the health of our members and the communities we serve. We currently serve 12.6 million members in 8 states and the District of Columbia. Care for members and patients is focused on their total health and guided by their personal Permanente Medical Group physicians, specialists, and team of caregivers. Our expert and caring medical teams are empowered and supported by industry-leading technology advances and tools for health promotion, disease prevention, state-of-the-art care delivery, and world-class chronic disease management. Kaiser Permanente is dedicated to care innovations, clinical research, health education, and the support of community health.

### **B. About Kaiser Permanente Community Health**

At Kaiser Permanente, we recognize that where we live and how we live has a big impact on our health and well-being. Our work is driven by our mission: to provide high-quality, affordable health care services and to improve the health of our members and our communities. It’s also driven by our heritage of prevention and health promotion, and by our conviction that good health is a fundamental right.

As the nation’s largest nonprofit, integrated health system, Kaiser Permanente is uniquely positioned to improve the health and wellbeing of the communities we serve. We believe that being healthy isn’t just a result of high-quality medical care. Through our resources, reach, and partnerships, we are addressing unmet social needs and community factors that impact health. Kaiser Permanente is accelerating efforts to broaden the scope of our care and services to address all factors that affect people’s health. Having a safe place to live, enough money in the bank, access to healthy meals and meaningful social connections is essential to total health. Now is a time when our commitment to health and values compel us to do all we can to create more healthy years for everyone. We also share our financial resources, research, nurses and physicians, and our clinical practices and knowledge through a variety of grantmaking and investment efforts.

As we reflect on how 2020 changed the world, we must recognize that communities everywhere are coping with unprecedented challenges magnified by the COVID-19 pandemic and a renewed struggle for racial equity and social justice.

Through our continued focus on expanding our community health approach we laid the foundation for an acceleration of work to meet the challenges posed by the public health crises we now face. We dedicated ourselves to improving the social health of our 12.6 million members and the millions of people who live in the communities we serve.

For information on the CHNA, refer to the [2022 Community Health Needs Assessments and Implementation Strategies](http://www.kp.org/chna) (<http://www.kp.org/chna>).

### **C. Purpose of the Report**

Since 1996, Kaiser Foundation Hospitals (KFH) in Northern and Southern California (NCAL, SCAL) have annually submitted to the California Department of Health Care Access and Information (HCAI) a Consolidated Community Benefit Plan, commonly referred to as the SB 697 Report (for Senate Bill 697 which mandated its existence). This plan fulfills the annual year-end community benefit reporting regulations under California Health and Safety Code, Section 127340 et seq. The report provides detailed information and financial data on the Community Benefit programs, services, and activities provided by all KFH hospitals in California.

## II. Overview and Description of Community Benefit Programs Provided

### A. California Kaiser Foundation Hospitals Community Benefit Financial Contribution

In California, KFH owns and operates 36 hospitals: 21 community hospitals in Northern California and 15 in Southern California, all accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO). KFH hospitals are located in Anaheim, Antioch, Baldwin Park, Downey, Fontana, Fremont, Fresno, Irvine, Los Angeles, Manteca, Modesto, Moreno Valley, Oakland, Ontario, Panorama City, Redwood City, Richmond, Riverside, Roseville, Sacramento, San Diego, San Francisco, San Jose, San Leandro, San Marcos, San Rafael, Santa Clara, Santa Rosa, South Bay, South Sacramento, South San Francisco, Vacaville, Vallejo, Walnut Creek, West Los Angeles, and Woodland Hills.

In 2023, Kaiser Foundation Hospitals in Northern and Southern California Regions provided a total of \$1,156,318,352 in Community Benefit for a diverse range of community projects, medical care services, research, and training for health and medical professionals. These programs and services are organized in alignment with SB697 regulations:

- Medical Care Services for Vulnerable Populations
- Other Benefits for Vulnerable Populations
- Benefits for the Broader Community
- Health, Research, Education and Training

A breakdown of financial contributions is provided in Tables A. Note that 'non-quantifiable benefits' will be highlighted in the Year end Results section of KFH Community Benefit Plan, where applicable.

Table A

**2023 Community Benefits Provided by Kaiser Foundation Hospitals in California** (Endnotes in Appendix)

Category	Total Spend
<b>Medical Care Services for Vulnerable Populations</b>	
Medi-Cal shortfall <sup>1</sup>	\$487,302,412
Charity care: Charitable Health Coverage Programs	\$869
Charity care: Medical Financial Assistance Program <sup>2</sup>	\$397,648,749

<b>Subtotal</b>	<b>\$192,374,126</b>
<b>TOTAL COMMUNITY BENEFITS PROVIDED</b>	<b>\$1,156,318,352</b>

## B. Medical Care Services for Vulnerable Populations

### Medi-Cal

Kaiser Permanente provides coverage to Medi-Cal members in 22 counties in California through both direct contracts with the Department of Health Care Services (DHCS), and through delegated arrangements with other Medi-Cal managed care plans (MCPs). Kaiser Permanente also provides subsidized health care on a fee-for-service basis for Medi-Cal beneficiaries not enrolled as KFHP members. Reimbursement for some services is usually significantly below the cost of care and is considered subsidized care to non-member Medi-Cal fee-for-service patients.

### Charitable Health Coverage

The Charitable Health Coverage program provides health care coverage to low-income individuals and families who don't have access to other public or private health coverage. CHC programs work by enrolling qualifying individuals in a Kaiser Permanente Individual and Family Health Plan. Through CHC, members' monthly premiums are subsidized, and members do not have to pay copays or out-of-pocket costs for most care at Kaiser Permanente facilities. Through CHC, members have a medical home that includes comprehensive coverage, preventive services and consistent access through the "front door" of the health delivery system.

### Medical Financial Assistance

The Medical Financial Assistance program (MFA) improves health care access for people with limited incomes and resources and is fundamental to Kaiser Permanente's mission. Our MFA program helps low-income, uninsured, and underinsured patients receive access to care. The program provides temporary financial assistance or free care to patients who receive health care services from our providers, regardless of whether they have health coverage or are uninsured.

## C. Other Benefits for Vulnerable Populations

### Watts Counseling and Learning Center (SCAL)

Since 1967, the Watts Counseling and Learning Center (WCLC) has been a valuable community resource for low-income, inner-city families in South Central Los Angeles. WCLC provides mental health and counseling services, educational assistance to children with learning disabilities, and a state-licensed and nationally accredited preschool program. Kaiser Permanente Health Plan membership is not required to receive these services and all services are offered in both English and Spanish. This program primarily serves the KFH-Downey, KFH-South Bay and KFH-West LA communities.

### Educational Outreach Program (SCAL)

Since 1992, Educational Outreach Program (EOP) has been empowering children and their families through several year-round educational, counseling, and social programs. EOP helps individuals develop crucial life-skills to pursue higher education, live a healthier lifestyle through physical activity and proper nutrition, overcome mental obstacles by participating in counseling, and instill confidence to advocate for the community. EOP primarily serves the KFH-Baldwin Park community.

#### **Youth Internship and Education Programs (NCAL and SCAL)**

Youth workforce programs such as the Summer Youth Employment Programs, IN-ROADS or KP LAUNCH focus on providing underserved diverse students with meaningful employment experiences in the health care field. Educational sessions and motivational workshops introduce them to the possibility of pursuing a career in health care while enhancing job skills and work performance. These programs serve as a pipeline for the organization and community-at-large, enhancing the future diversity of the health care workforce.

### **D. Benefits for the Broader Community**

#### **Community Health Education and Health Promotion Programs (NCAL and SCAL)**

Health Education provides evidence-based clinically effective programs, printed materials, and training sessions to empower participants to build healthier lifestyles. This program incorporates tested models of behavior change, individual/group engagement and motivational interviewing as a language to elicit behavior change. Many of the programs and resources are offered in partnership with community-based organizations, and schools.

#### **Kaiser Permanente Educational Theatre (NCAL and SCAL)**

Kaiser Permanente's Educational Theatre has inspired and empowered millions of students and adults in communities to make healthy choices. Educational Theatre offers a wide range of award-winning theatrical productions and interactive workshops to schools throughout the Kaiser Permanente footprint.

Using the power of theatre and storytelling, our programs directly connect with students and adults through relatable characters and real-life situations. Audiences see themselves represented onstage in our culturally and ethnically diverse casts allowing them to connect with the narrative and educational messages in a meaningful way. Our team builds on this connection, inspiring students, and adults alike to make healthy choices and build stronger communities.

### **E. Health Research, Education, and Training Programs**

#### **Graduate Medical Education (GME)**

The Graduate Medical Education (GME) program provides training and education for medical residents and interns in the interest of educating the next generation of physicians. Residents are offered the opportunity to serve a large, culturally diverse patient base in a setting with sophisticated technology and information systems, established clinical guidelines and an emphasis on preventive and primary care. The majority of medical residents are studying within the primary care medicine areas of family practice, internal medicine, obstetrics-gynecology, pediatrics, preventive medicine, and psychiatry.

### **Non-MD Provider Education and Training Programs**

Kaiser Permanente provides a range of training and education programs for nurse practitioners, nurses, radiology and sonography technicians, physical therapists, post-graduate psychology and social work students, pharmacists, and other non-physician health professionals. This includes Northern California Region's Kaiser Permanente School of Allied Health Sciences, which offers 18-month training programs in sonography, nuclear medicine, and radiation therapy, and Southern California Region's Hippocrates Circle Program, which was designed to provide youth from under-represented communities and diverse backgrounds with an awareness of career opportunities as a physician.

### **Health Research**

Kaiser Permanente's research efforts are core to the organization's mission to improve population health, and its commitment to continued learning. Kaiser Permanente researchers study critical health issues such as cancer, cardiovascular conditions, diabetes, behavioral and mental health, and health care delivery improvement. Kaiser Permanente's research is broadly focused on three themes: understanding health risks; addressing patients' needs and improving health outcomes; and informing policy and practice to facilitate the use of evidence-based care.

Kaiser Permanente is uniquely positioned to conduct research due to its rich, longitudinal, electronic clinical databases that capture virtually complete health care delivery, payment, decision-making and behavioral data across inpatient, outpatient, and emergency department settings.

### III. Community Served

#### A. Kaiser Permanente's Definition of Community Served

Kaiser Permanente defines the community served by a hospital as those individuals residing within its hospital service area. A hospital service area includes all residents in a defined geographic area surrounding the hospital and does not exclude low-income or underserved populations.

#### B. Demographic Profile of Community Served

[KFH-San Leandro service area demographic profile](#)

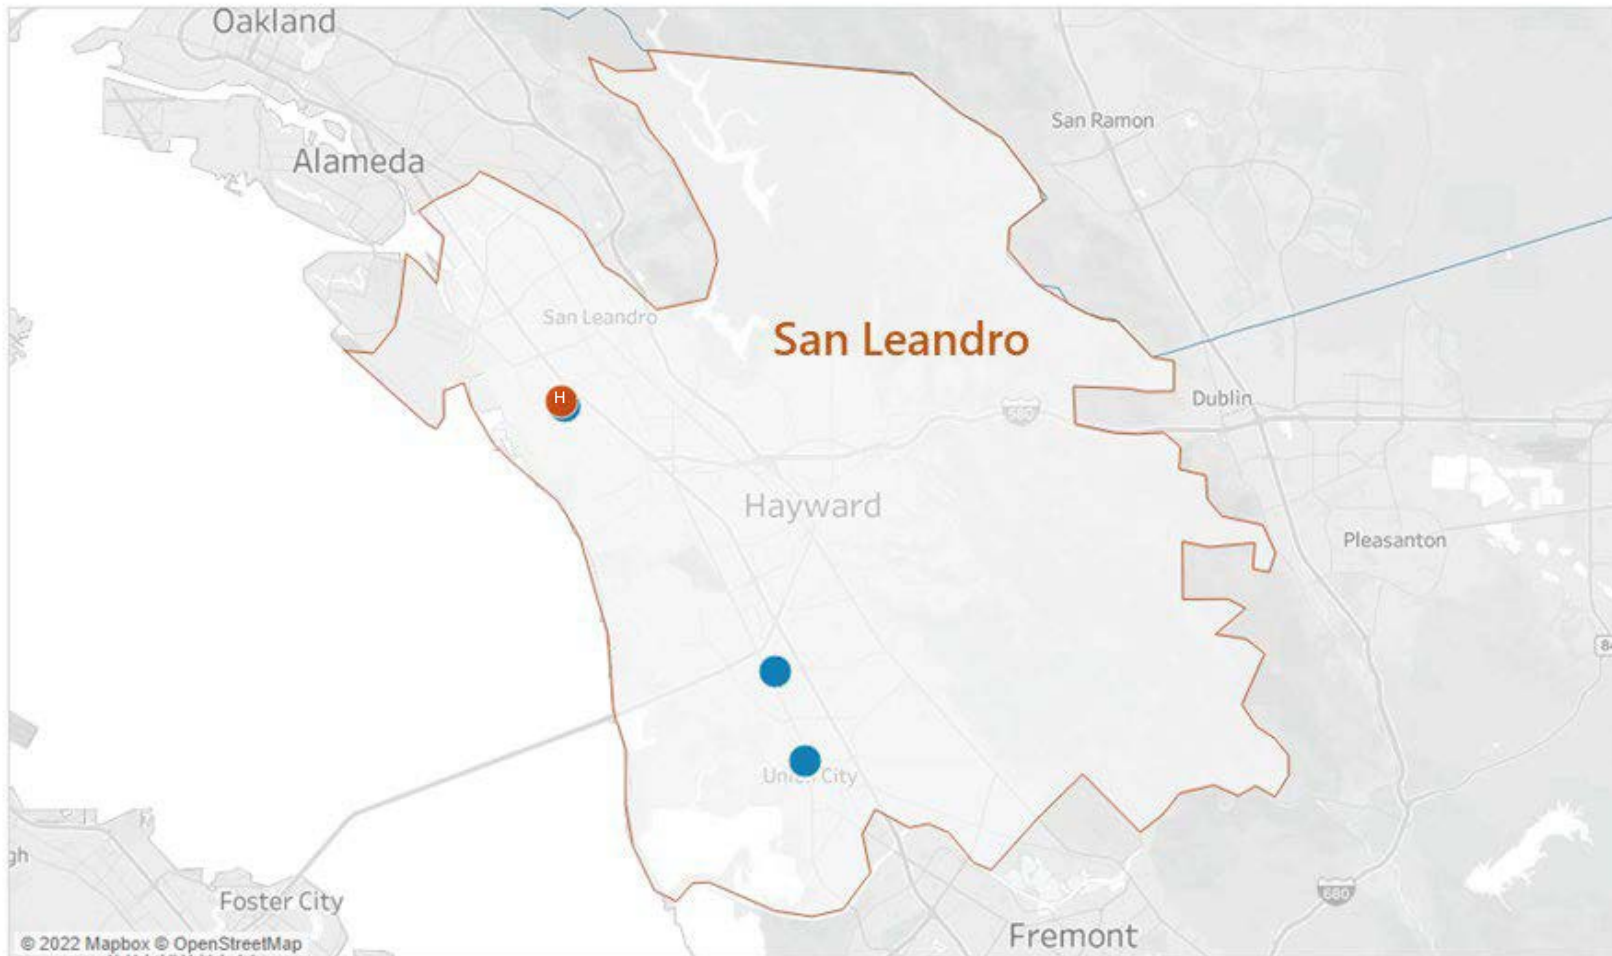

<b>Total population:</b>	<b>522,973</b>
American Indian/Alaska Native	0.2%
Asian	5.6%
Black	2.0%
Hispanic	19.3%
Multiracial	3.3%
Native Hawaiian/other Pacific Islander	0.2%
Other race/ethnicity	0.3%
White	69.1%
Under age 18	21.8%
Age 65 and over	13.3%

SOURCE: AMERICAN COMMUNITY SURVEY, 2015-2019

### C. Map and Description of Community Served

#### KFH-San Leandro service area

 Kaiser Permanente hospital     Kaiser Permanente medical offices

The KFH-San Leandro service area covers the southern part of Alameda County. The cities served include Castro Valley, Hayward (including the unincorporated areas of Ashland, Cherryland, and Fairview), San Leandro, San Lorenzo, and Union City.

## IV. Description of Community Health Needs Addressed

The following are the health needs KFH-San Leandro is addressing during the 2023-2025 Implementation Strategy period. For information about the process and criteria used to select these health needs and the health needs that were not selected (and the rationale), please review the [2022 CHNA Report and the 2023-2025 Implementation Strategy Report](http://www.kp.org/chna). (<http://www.kp.org/chna>).

### A. Health Needs Addressed

- 1. Mental & behavioral health:** Mental health affects all areas of life, including a person's physical well-being, ability to work and perform well in school and to participate fully in family and community activities. People in the San Leandro service area have a high need for access to mental and behavioral health services that combat opioid overdose and mental health issues resulting in deaths of despair, especially Black residents. Specifically, opioid overdose death rates are twice as high for Black residents than the San Leandro service area overall. Deaths of despair, those due to suicide, drug overdose, and alcoholism are higher for Black and white residents of the San Leandro service area compared to other racial and ethnic groups for which data are available, as well as for the San Leandro service area generally. According to key informants, youth are experiencing harassment and bullying, and LGBTQ and BIPOC (Black, Indigenous, and People of Color) are experiencing trauma and over policing. The COVID-19 pandemic increased isolation, loneliness, and anti-Asian hate crimes which can compromise both mental and behavior health.
- 2. Access to care:** Access to comprehensive, quality health care services — including having insurance, local care options, and a usual source of care — is important for ensuring quality of life for everyone. The San Leandro service area experiences better outcomes across many measures of access to care. These include higher rates of insured populations compared to California and other measures such as infant mortality, which are on par with Alameda County. However, rates of these measures differ across racial and ethnic groups and ZIP codes. Black residents in the San Leandro service area experience higher rates of infant mortality than the service area generally. COVID-19 death rates were highest among Multiracial and Black residents, compared to all other racial and ethnic groups and the San Leandro service area overall. In addition, the ZIP code with the highest proportion of Hispanic residents had the highest rate of uninsured, both for total population and for children. Key informants described three main barriers to accessing care in the San Leandro service area: cost, logistics in accessing appointments, and quality of care.
- 3. Income & employment:** Economic opportunity provides individuals with jobs, income, a sense of purpose, and opportunities to improve their economic circumstances over time. San Leandro service area residents in the labor force often need to travel out of the service area for employment and key informants reported that the San Leandro service area lacks jobs that pay livable wages. Additionally, the San Leandro service area has higher rates of students eligible for free and reduced-price lunch than the state; an indicator of the prevalence of families finding it difficult to make ends meet. San Leandro service area neighborhoods

with relatively high Black populations also experience lower median income levels. Key informants highlighted that some populations are impacted more (e.g., communities that face discrimination when applying for jobs), such as people who are LGBTQ (especially transgender), youth, formerly incarcerated, older adults, and people with undocumented status.

**B. Health Needs Not Addressed**

The significant health needs identified in the 2022 CHNA that KFH-San Leandro does not plan to address are shown in the table below, along with the reasons for not addressing those needs.

Reason	Housing	Community safety
Less feasibility to make an impact on this need	x	x
Less ability for Kaiser Permanente to leverage expertise or assets to address this need	x	x
This need is incorporated into other needs selected	x	x
Aspects of this need will be addressed in strategies for other needs	x	x

## V. Year-End Results

### A. Community Benefit Financial Resources

Total Community Benefit expenditures are reported as follows:

- Medical care services for vulnerable populations include unreimbursed inpatient costs for participation in Kaiser Permanente-subsidized and government-sponsored health care insurance programs.
- Since 2006, figures for subsidized products have been reported on a cost-basis (e.g., the difference of total revenues collected for services less direct and indirect expenses).
- Grant and donations are recorded in the general ledger in the appropriate amount and accounting period on an accrual, not cash basis. The amount reported reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures are not available, dollars are allocated to each hospital based on the percentage of KFHP members.
- The unreimbursed portion of medical, nursing, and other health care professional education and training costs are included.

Resource allocations are reported, as follows:

- Financial expenditures are reported in exact amounts, if available, by hospital service area.
- If exact financial expenditure amounts are not available by hospital service area, then regional expenses are allocated proportionally based on KFHP membership or other quantifiable data.

**Table B****KFH-San Leandro Community Benefits Provided in 2023** (Endnotes in Appendix)

Category	Total Spend
<b>Medical Care Services for Vulnerable Populations</b>	
Medi-Cal shortfall <sup>1</sup>	\$15,526,916
Charity care: Charitable Health Coverage programs	\$49
Charity care: Medical Financial Assistance Program <sup>2</sup>	\$16,026,835
Grants and donations for medical services <sup>3</sup>	\$620,048
<b>Subtotal</b>	<b>\$32,173,848</b>
<b>Other Benefits for Vulnerable Populations</b>	
Youth Internship and Education programs <sup>5</sup>	\$182,743
Grants and donations for community-based programs <sup>6</sup>	\$421,000
Community Benefit administration and operations <sup>7</sup>	\$296,004

Non-MD provider education and training programs <sup>10</sup>	\$426,886
Health research	\$1,861,673
<b>Subtotal</b>	<b>\$2,671,412</b>
<b>TOTAL COMMUNITY BENEFITS PROVIDED</b>	<b>\$36,579,806</b>

## B. Examples of Activities to Address Selected Health Needs

All Kaiser Foundation Hospitals (KFH) carefully consider the evidence-base when determining which goals, strategies, and related activities would be most effective in addressing priority health needs. It is anticipated that successful implementation of key activities (programs, grants, collaborations, and/or in-kind assets), tied to key goals and strategies, can contribute toward improving the priority health needs in the community. For information on the goals and strategies that were selected for each health need, please refer to the [2022 CHNA Report and the 2023-2025 Implementation Strategy Report](http://www.kp.org/chna) (<http://www.kp.org/chna>).

Mechanisms for monitoring progress are tailored to each activity and may include the collection and documentation of tracking measures such as number of grants awarded, total investments, and number of people reached/served. Kaiser Permanente also conducts evaluation of larger grant initiatives to understand both progress and outcomes. In addition to internal monitoring and evaluation, Kaiser Permanente requires grantees to track and report outcomes of the projects for which they have received funding.

The tables below provide highlights for a select number of programs, grants, collaboration and/or assets that aim to address the identified health needs for KFH-San Leandro. The examples provided below are illustrations and not an exhaustive list.

In addition to the highlights outlined in the tables to address specific health needs, Kaiser Permanente NCAL provided significant contributions to the East Bay Community Foundation (EBCF) in the interest of funding effective long-term, strategic community benefit initiatives. These EBCF-managed funds, however, are not included in the financial totals for 2023.

Need	Examples of most impactful efforts
<p><b>Access to Care</b></p>	<p><b>Medi-Cal and Charity Care:</b>                      In 2023, KFH-San Leandro provided access to care to 23,839 Medi-Cal members and provided financial assistance to 5,450 people through the Medical Financial Assistance (MFA) program.</p>
	<p><b>Reducing Barriers to Care:</b>                      The mission of The Davis Street Community Center Inc. is to improve the quality of life for low-income residents in the Eden Area and surrounding communities by providing integrated services. The Davis Street Community Center Inc. was awarded \$75,000 over a year. The Primary Care Clinic is expected to support low-income residents of San Leandro, San Lorenzo, Oakland, Ashland, Cherryland, Castro Valley and surrounding communities by providing culturally and linguistically relevant care to more than 3,500 individuals. (This grant impacts 1 hospital service area in NCAL)</p>
	<p><b>Safety Net Partnerships in the East Bay:</b>                      The mission of the Community Health Center is to partner with community health centers to provide comprehensive, quality health care that respects community traditions and values. Community Health Center was awarded \$480,000 over a year. As one of 12 community health centers across California in the Safety Net Partnership Initiative Clinic Consortia Cohort, this project will address health care disparities and health equity by supporting clinic training programs, transition to value-based care and alternative payment methodologies (APM initiative), and improve technology infrastructure. (This grant impacts 3 hospital service areas in NCAL)</p>
<p><b>Mental &amp; Behavioral Health</b></p>	<p><b>Early Childhood Mental Health and Trauma-Informed Care Consultation:</b>                      The mission of the Young Men's Christian Association (YMCA) of the East Bay is to empower youth, advance health, and strengthen communities. YMCA was awarded \$150,000 over a year. The project will provide trauma-informed care in early learning centers and programs, increasing access to mental health and other needed services, resulting in better outcomes for children, families, and staff. This is expected to serve 1,200 individuals, particularly underserved African American, Black, and Latino families from Alameda, Contra Costa, Yolo, and Sacramento counties. (This grant impacts 6 hospital service areas in NCAL)</p>

Need	Examples of most impactful efforts
	<p><b>Our Space Mental Health Intervention for Hayward LGBTQIA+ Youth:</b>                      The mission of Side by Side is to walk with young people impacted by adversity toward a future with connection and meaning. Our partnership with Side by Side supports the Our Space Mental Health Intervention for LGBTQIA+ youth. Group and one-on-one services address the social, emotional, and mental health needs of middle and high school students. Training and allyship forums are offered to educators and families to effectively support queer and trans youth to provide youth with a safe and accepting school and home environment. Outreach is provided to LGBTQIA+ Latino youth to mitigate adverse childhood events and isolation, and to help them build resilience, find community, and thrive. This project is expected to serve 600 individuals in the Hayward Unified School District and beyond, including students, staff members, and parents. (This grant impacts 1 hospital service area in NCAL)</p> <p><b>Building Practice in Community:</b>                      The mission of Home Within Inc. is to create and support lasting and caring relationships for children and youth in foster care by supporting a network of licensed therapists who provide free, weekly, one-on-one therapy to foster youth. A Home Within Inc. was awarded \$150,000 over a year for the Building Practice in Community program. This no-cost professional development program supports cohorts of diverse, early-career therapists with clinical supervision, continuing education, mentorship, consultation, and professional networking opportunities in exchange for a commitment to provide pro-bono therapy to foster youth. This project is expected to serve 36 individuals. (This grant impacts 4 hospital service areas in NCAL)</p>
<p><b>Income &amp; Employment</b></p>	<p><b>2023 Building Local Outreach Capacity for CalFresh Enrollment (BLOC) Cohort:</b>                      The mission of the Alameda County Community Food Bank is to pursue a hunger-free community where the children, adults, and seniors of Alameda County do not worry about where their next meal is coming from. The BLOC cohort is a partnership with 18 community-based organizations throughout Northern California to implement innovative strategies providing outreach and enrollment services for eligible individuals to apply for or retain CalFresh and Medi-Cal benefits. This partnership will ensure that all eligible individuals in Kaiser Permanente communities have access to these programs, and that outreach and enrollment opportunities are responsive to current and emerging needs. Alameda County Community Food Bank is expected to help 4,200 low-income households apply for CalFresh benefits. (This impacts 4 hospital service areas in NCAL)</p>

Need	Examples of most impactful efforts
	<p><b>Advancing Financial Literacy:</b>                      The mission of Prospera Community Development is to partner with Latina entrepreneurs to launch businesses that foster cooperation, economic independence, and well-being in immigrant communities. Prospera Community Development was awarded \$75,000 over a year as part of our partnership with diverse community-based organizations working to strengthen financial literacy and capital readiness across California. Prospera Community Development will support 170 Latina immigrant entrepreneurs to strengthen their financial literacy, develop knowledge and tools to be capital-ready, and make informed financial decisions to launch or grow a small business. (This grant impacts 1 hospital service area in NCAL)</p>

## Appendix B

### Endnotes

- <sup>1</sup> Amount includes hospital-specific, unreimbursed expenditures for Medi-Cal Managed Care members and Medi-Cal Fee-for-Service beneficiaries on a cost basis.
- <sup>2</sup> Amount includes unreimbursed care provided to patients who qualify for Medical Financial Assistance on a cost basis.
- <sup>3</sup> Figures reported in this section for grants and donations consist of charitable contributions to community clinics and other safety-net providers and support access to care.
- <sup>4</sup> Applicable to only SCAL - Watts Counseling and Learning Center's service expenses are divided among three hospitals: KFH-Downey, KFH-South Bay, and KFH-West Los Angeles. Educational Outreach Program service expenses are only applicable to KFH-Baldwin Park.
- <sup>5</sup> Figures reported in this section are expenses for youth internship and education programs for under-represented populations.
- <sup>6</sup> Figures reported in this section for grants and donations consist of charitable contributions to community-based organizations that address the nonmedical needs of vulnerable populations.
- <sup>7</sup> The amount reflects the costs of the community benefit department and related operational expenses.
