## I. Introduction and Background

### A. About Kaiser Permanente

Founded in 1942 to serve employees of Kaiser Industries and opened to the public in 1945, Kaiser Permanente is recognized as one of America's leading health care providers and nonprofit health plans. We were created to meet the challenge of providing American workers with medical care during the Great Depression and World War II, when most people could not afford to go to a doctor. Since our beginnings, we have been committed to helping shape the future of health care. Among the innovations Kaiser Permanente has brought to U.S. health care are:

- Prepaid health plans, which spread the cost to make it more affordable
- A focus on preventing illness and disease as much as on caring for the sick
- An organized, coordinated system that puts as many services as possible under one roof—all connected by an electronic medical record

Kaiser Permanente is an integrated health care delivery system comprised of Kaiser Foundation Hospitals (KFH), Kaiser Foundation Health Plan (KFHP), and physicians in the Permanente Medical Groups. Today we serve approximately 12.6 million members in nine states and the District of Columbia. Our mission is to provide high-quality, affordable health care services and to improve the health of our members and the communities we serve.

Care for our members and patients is focused on their total health and guided by their personal physicians, specialists, and team of caregivers. Our expert and caring medical teams are empowered and supported by industry-leading technology advances and tools for health promotion, disease prevention, state-of-the-art care delivery, and world-class chronic disease management. Kaiser Permanente is dedicated to care innovations, clinical research, health education, and the support of community health.

### B. About Kaiser Permanente Community Health

Kaiser Permanente is dedicated to providing high-quality, affordable health care services and to improving the health of our members and the communities we serve. We believe good health is a fundamental right shared by all and we recognize that good health extends beyond the doctor's office and the hospital. It begins with healthy environments: fresh fruits and vegetables in neighborhood stores, successful schools, clean air, accessible parks, and safe playgrounds. Good health for the entire community requires equity and social and economic well-being. These are the vital signs of healthy communities.

Better health outcomes begin where health starts, in our communities. Like our approach to medicine, our work in the community takes a prevention-focused, evidence-based approach. Our community health strategy focuses on three areas:

- Ensuring health access by providing individuals served at Kaiser Permanente or by our safety-net partners with integrated clinical and social services.
- Improving conditions for health and equity by engaging members, communities, and Kaiser Permanente's workforce and assets.
- Advancing the future of community health by innovating with technology and social solutions.

For many years, we've worked side-by-side with other organizations to address serious public health issues such as obesity, access to care, and violence. We've conducted Community Health Needs Assessments to better understand each community's unique needs and resources. The CHNA process informs our community investments and helps us develop strategies aimed at making long-term, sustainable change—and it allows us to deepen the strong relationships we have with other organizations that are working to improve community health. For information on the CHNA, please refer to the [2019 CHNA Report and the 2020-2022 Implementation Strategy Report](http://www.kp.org/chna) (<http://www.kp.org/chna>).

### **C. Purpose of the Report**

Since 1996, Kaiser Foundation Hospitals (KFH) in Northern and Southern California (NCAL, SCAL) have annually submitted to the California Department of Health Care Access and Information (HCAI) a Consolidated Community Benefit Plan, commonly referred to as the SB 697 Report (for Senate Bill 697 which mandated its existence). This plan fulfills the annual year-end community benefit reporting regulations under California Health and Safety Code, Section 127340 et seq. The report provides detailed information and financial data on the Community Benefit programs, services, and activities provided by all KFH hospitals in California.

## II. Overview and Description of Community Benefit Programs Provided

### A. California Kaiser Foundation Hospitals Community Benefit Financial Contribution

In California, KFH owns and operates 36 hospitals: 21 community hospitals in Northern California and 15 in Southern California, all accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO). KFH hospitals are located in Anaheim, Antioch, Baldwin Park, Downey, Fontana, Fremont, Fresno, Irvine, Los Angeles, Manteca, Modesto, Moreno Valley, Oakland, Ontario, Panorama City, Redwood City, Richmond, Riverside, Roseville, Sacramento, San Diego, San Francisco, San Jose, San Leandro, San Rafael, Santa Clara, Santa Rosa, South Bay, South Sacramento, South San Francisco, Vacaville, Vallejo, Walnut Creek, West Los Angeles, and Woodland Hills.

In 2022, Kaiser Foundation Hospitals in Northern and Southern California Regions provided a total of \$1,056,168,474 in Community Benefit for a diverse range of community projects, medical care services, research, and training for health and medical professionals. These programs and services are organized in alignment with SB697 regulations:

- Medical Care Services for Vulnerable Populations
- Other Benefits for Vulnerable Populations
- Benefits for the Broader Community
- Health, Research, Education and Training

A breakdown of financial contributions is provided in Tables A. Note that 'non-quantifiable benefits' will be highlighted in the Year-End Results section of KFH Community Benefit Plan, where applicable.

<b>Subtotal</b>	<b>\$181,227,448</b>
<b>TOTAL COMMUNITY BENEFITS PROVIDED</b>	<b>\$1,056,168,474</b>

## B. Medical Care Services for Vulnerable Populations

### Medi-Cal

Kaiser Permanente provides coverage to Medi-Cal members in 22 counties in California through both direct contracts with the Department of Health Care Services (DHCS), and through delegated arrangements with other Medi-Cal managed care plans (MCPs). Kaiser Permanente also provides subsidized health care on a fee-for-service basis for Medi-Cal beneficiaries not enrolled as KFHP members. Reimbursement for some services is usually significantly below the cost of care and is considered subsidized care to non-member Medi-Cal fee-for-service patients.

### Charitable Health Coverage

The Charitable Health Coverage program is a unique approach to caring for low-income uninsured persons in the community. The program provides a premium subsidy to low-income individuals and families who are not eligible for other public or privately sponsored coverage. Eligible participants receive a regular Health Plan membership card and have access to the same services and providers as other health plan individual and family plan members. Charitable Health Coverage Program members also receive cost sharing support that eliminates out of pocket costs for most covered services provided at Kaiser Permanente facilities.

### Medical Financial Assistance

The Medical Financial Assistance program (MFA) helps low-income, uninsured, and underinsured patients receive access to care. The program provides temporary financial assistance or free care to patients who receive health care services from our providers, regardless of whether they have health coverage or are uninsured. The MFA program is one of the most generous in the health care industry and is available to those patients in greatest need.

## C. Other Benefits for Vulnerable Populations

### Watts Counseling and Learning Center (SCAL)

Since 1967, the Watts Counseling and Learning Center (WCLC) has been a valuable community resource for low-income, inner-city families in South Central Los Angeles. WCLC provides mental health and counseling services, educational assistance to children with learning disabilities, and a state-licensed and nationally accredited preschool program. Kaiser Permanente Health Plan membership is not required to receive these services and all services are offered in both English and Spanish. This program primarily serves the KFH-Downey, KFH-South Bay and KFH-West LA communities.

### Educational Outreach Program (SCAL)

Since 1992, Educational Outreach Program (EOP) has been empowering children and their families through several year-round educational, counseling, and social programs. EOP helps individuals develop crucial life-skills to pursue higher education, live a healthier lifestyle through physical activity and proper nutrition, overcome mental obstacles by participating in counseling, and instill confidence to advocate for the community. EOP primarily serves the KFH-Baldwin Park community.

### Youth Employment Programs (NCAL and SCAL)

Youth workforce programs such as the Summer Youth Employment Programs, IN-ROADS or KP LAUNCH focus on providing underserved diverse students with meaningful employment experiences in the health care field. Educational sessions and motivational workshops introduce them to the possibility of pursuing a career in health care while enhancing job skills and work performance. These programs serve as a pipeline for the organization and community-at-large, enhancing the future diversity of the health care workforce.

## **D. Benefits for the Broader Community**

### **Community Health Education and Health Promotion Programs (NCAL and SCAL)**

Health Education provides evidence-based clinically effective programs, printed materials, and training sessions to empower participants to build healthier lifestyles. This program incorporates tested models of behavior change, individual/group engagement and motivational interviewing as a language to elicit behavior change. Many of the programs and resources are offered in partnership with community-based organizations, and schools.

### **Kaiser Permanente Educational Theatre (NCAL and SCAL)**

Celebrating over 35 years of service, Kaiser Permanente Educational Theatre has inspired and empowered millions of students and adults in communities across the United States to make healthy choices. Educational Theatre offers a wide range of award-winning theatrical productions and interactive workshops to schools throughout the Kaiser Permanente footprint.

Using the power of theatre and storytelling, our programs directly connect with students and adults through relatable characters and real-life situations. Audiences see themselves represented onstage in our culturally and ethnically diverse casts allowing them to connect with the narrative and educational messages in a meaningful way. Our team builds on this connection, inspiring students, and adults alike to make healthy choices and build stronger communities. Currently, there are 3 programs available in every Kaiser Permanente region.

## **E. Health Research, Education, and Training Programs**

### **Graduate Medical Education (GME)**

The Graduate Medical Education (GME) program provides training and education for medical residents and interns in the interest of educating the next generation of physicians. The program attracts some of the top medical school graduates in the United States and serves as a national model by exposing future health care providers to an integrated health care delivery system. Residents are offered the opportunity to serve a large, culturally diverse patient base in a setting with sophisticated technology and information systems, established clinical guidelines and an emphasis on preventive and primary care. The majority of medical residents are studying within the primary care medicine areas of family practice, internal medicine, ob/gyn, pediatrics, preventive medicine, and psychiatry.

### **Non-MD Provider Education and Training Programs**

Kaiser Permanente provides education, training, residences, internships, and/or scholarships and stipends for non-physician health care professionals in nursing, pharmacy, physical therapy, psychology, and radiology. This includes Northern California Region's Kaiser Permanente School of Allied Health Sciences, which offers 18-month training programs in sonography, nuclear medicine, and radiation therapy and Southern California Region's Hippocrates Circle Program, which was designed to provide youth from under-represented communities and diverse backgrounds with an awareness of career opportunities as a physician.

### **Health Research**

Kaiser Permanente's research efforts are core to the organization's mission to improve population health, and its commitment to continued learning. Kaiser Permanente researchers study critical health issues such as cancer, cardiovascular conditions, diabetes, behavioral and mental health, and health care delivery improvement. Kaiser Permanente's research is broadly focused on three themes: understanding health risks; addressing patients' needs and improving health outcomes; and informing policy and practice to facilitate the use of evidence-based care.

Kaiser Permanente is uniquely positioned to conduct research due to its rich, longitudinal, electronic clinical databases that capture virtually complete health care delivery, payment, decision-making and behavioral data across inpatient, outpatient, and to become health care professionals.

## III. Community Served

### A. Kaiser Permanente's Definition of Community Served

Kaiser Permanente defines the community served by a hospital as those individuals residing within its hospital service area. A hospital service area includes all residents in a defined geographic area surrounding the hospital and does not exclude low-income or underserved populations.

### B. Demographic Profile of Community Served

[KFH-Modesto service area demographic profile](#)

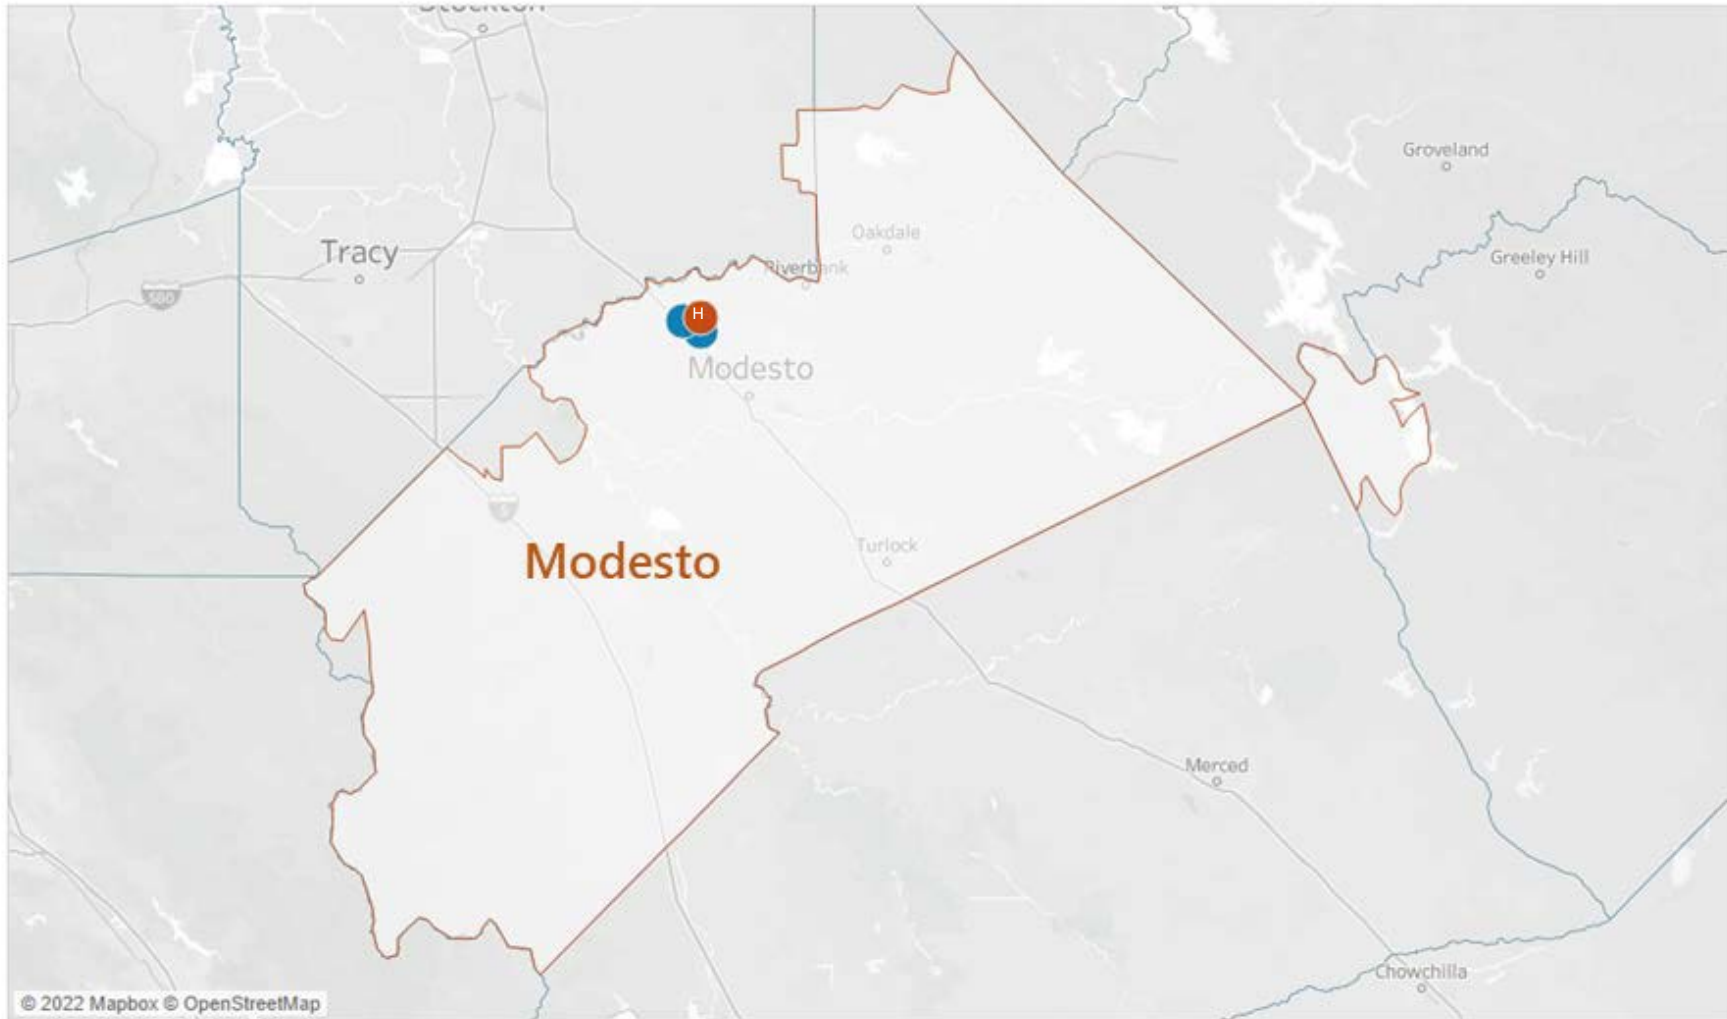

<b>Total population:</b>	<b>549,370</b>
American Indian/Alaska Native	0.5%
Asian	5.4%
Black	2.6%
Hispanic	48.2%
Multiracial	2.9%
Native Hawaiian/other Pacific Islander	0.7%
Other race/ethnicity	0.1%
White	39.6%
Under age 18	27.1%
Age 65 and over	12.9%

SOURCE: AMERICAN COMMUNITY SURVEY, 2015-2019

### C. Map and Description of Community Served

KFH-Modesto service area

 Kaiser Permanente hospital     Kaiser Permanente medical offices

The KFH-Modesto service area includes a large portion of Stanislaus County and the cities Ceres, Hughson, Modesto, Newman, Oakdale, Patterson, Riverbank, Turlock, and Waterford.

## IV. Description of Community Health Needs Addressed

The following are the health needs KFH-Modesto is addressing during the 2020-2022 Implementation Strategy period. For information about the process and criteria used to select these health needs and the health needs that were not selected (and the rationale), please review the [2019 CHNA Report and the 2020-2022 Implementation Strategy Report](http://www.kp.org/chna) (<http://www.kp.org/chna>).

### A. Health Needs Addressed

1. **Access to Care:** Access to high-quality, culturally competent, affordable health care and health services are essential to the prevention and treatment of morbidities and increase quality of life, especially for the most vulnerable. In the KFH-Modesto Service Area, residents are more likely to be enrolled in Medicaid or other public insurance, which is a factor related to overall poverty rates. Latino and residents identifying as “Other” are most likely to be uninsured. The CHNA primary data revealed that immigration status as well as insufficient insurance impact access to care; lack of transportation and too few providers, particularly specialty care, mental health, and dental services, were also discussed by key informants and in the focus groups. Access to care received the third highest number of points during scoring to select the health needs to address as KP can leverage significant organizational assets for this need, particularly charitable health coverage and medical financial assistance as well as participation in Medical Managed Care.
2. **Mental and Behavioral Health:** Mental health and well-being are essential to living a meaningful and productive life. Mental health and well-being provide people with the necessary skills to cope with and move on from daily stressors and life’s difficulties, allowing for improved personal wellness, meaningful social relationships, and contributions to communities or society. There are more days of poor mental health among residents in the KFH-Modesto Service Area compared to the state. Suicide deaths are also higher among non-Hispanic Whites. During the CHNA, community residents and key informants described limited access to providers and services, while linking poor mental health to low incomes, substance abuse, and homelessness. Mental Health was identified during the CHNA as one of the highest priority needs and received the fourth highest number of points during the scoring process to select the health needs to address.
3. **Economic Security:** Economic security and stability lay the foundation for good health. Having adequate income and financial resources facilitates access to education, health care, healthy foods, safe housing, and other necessities and services that are requisite for overall well-being. Economic security contributes to good health. It facilitates access to health care services, healthy eating, and other factors that play a role in overall well-being. KFH-Modesto Service Area benchmarks poorly compared to the state on many economic security indicators and there are a significant number of ethnic/racial disparities within the county. Black, Native American/Alaska Native and Latino populations are among those most impacted by poverty. Homelessness, lack of employment, poor recovery post-recession, food insecurity and substance abuse relate to economic security and were mentioned as important issues by the CHNA key informants and focus group participants. Economic Security was identified during the CHNA as a medium priority need in the CHNA and received the second highest number of points during the scoring

process used to select the health needs to address. As one of the service area's larger employers and organizations, Kaiser Permanente can leverage organizational business practices and workforce development initiatives to address this need.

- 4. Obesity, Healthy Eating and Active Living (HEAL), Diabetes:** A lifestyle that includes HEAL improves overall health, mental health, and cardiovascular health, thus reducing costly and life-threatening health outcomes such as obesity and diabetes. Obesity rates and diabetes prevalence were higher in the KFH-Modesto Service Area as compared to the state. Physical inactivity is higher in the KFH-Modesto Service Area compared to the state, and disparities are higher among Latinos and Blacks. Poverty and lack of access to healthy food and safe places for physical activity were frequently mentioned as barriers in CHNA primary data and confirmed by secondary data. Obesity, HEAL, Diabetes was identified as one of the highest priority needs in the CHNA and received the highest number of points during the scoring process used to select the health needs to address, in part due to Kaiser Permanente's deep experience, expertise and organizational assets that can be mobilized to address this need.

## **B. Health Needs Not Addressed**

Substance abuse and tobacco received the second lowest number of points during the scoring process to select the health needs to address. This need will be addressed in part by strategies conducted under Mental Health. Cancers were categorized as a medium priority during the multi voting process conducted to prioritize health needs during the CHNA. Cancer prevention is addressed in part through Kaiser Permanente's strategies under Obesity/HEAL/Diabetes and Access to Care. Violence/Injury Prevention was categorized as a medium priority during the CHNA and received the fewest points during the scoring process to select needs to address. This need will be addressed in part by strategies conducted under Mental Health. Oral Health was identified as a lower priority during the CHNA. KFH-Modesto does not offer dental services and does not have oral health expertise in-house. Cardiovascular Disease (CVD) and Stroke was infrequently mentioned as a high priority in the primary data collected for the CHNA. Prevention will be addressed through many Obesity/HEAL/Diabetes and Access to Care strategies. In addition, KFH-Modesto and other area hospitals conduct ongoing CVD/Stroke prevention, education, and screening as part of their clinical and outreach activities. Climate and Health was identified as a lower priority during the CHNA, scoring lowest of all health needs in the CHNA analysis based on secondary data (in terms of severity, disparities) and qualitative data from focus groups and interviews. Asthma was identified as a lower priority during the CHNA. While KFH-Modesto addresses asthma in the clinical setting, there are limited organizational assets to leverage to address asthma in the broader community.

## V. Year-End Results

### A. Community Benefit Financial Resources

Total Community Benefit expenditures are reported as follows:

- Medical care services for vulnerable populations include unreimbursed inpatient costs for participation in Kaiser Permanente-subsidized and government-sponsored health care insurance programs.
- Since 2006, figures for subsidized products have been reported on a cost-basis (e.g., the difference of total revenues collected for services less direct and indirect expenses).
- Grant and donations are recorded in the general ledger in the appropriate amount and accounting period on an accrual, not cash basis. The amount reported reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures are not available, dollars are allocated to each hospital based on the percentage of KFHP members.
- The unreimbursed portion of medical, nursing, and other health care professional education and training costs are included.

Resource allocations are reported, as follows:

- Financial expenditures are reported in exact amounts, if available, by hospital service area.
- If exact financial expenditure amounts are not available by hospital service area, then regional expenses are allocated proportionally based on KFHP membership or other quantifiable data.

**Table B****KFH-Modesto Community Benefits Provided in 2022** (Endnotes in Appendix)

<b>Category</b>	<b>Total Spend</b>
<b>Medical Care Services for Vulnerable Populations</b>	
Medi-Cal shortfall <sup>1</sup>	\$5,907,118

<b>Subtotal</b>	<b>\$3,175,494</b>
<b>TOTAL COMMUNITY BENEFITS PROVIDED</b>	<b>\$19,217,602</b>

## B. Examples of Activities to Address Selected Health Needs

All Kaiser Foundation Hospitals (KFH) carefully consider the evidence-base when determining which goals, strategies, and related activities would be most effective in addressing priority health needs. It is anticipated that successful implementation of key activities (programs, grants, collaboration, and/or in-kind assets), tied to key goals and strategies, can contribute toward improving the priority health needs in the community. For information on the goals and strategies that were selected for each health need, please refer to the [2019 CHNA Report and the 2020-2022 Implementation Strategy Report](http://www.kp.org/chna) (<http://www.kp.org/chna>).

Mechanisms for monitoring progress are tailored to each activity and may include the collection and documentation of tracking measures such as number of grants made, number of dollars spent, number of people reached/served, and number and role of Kaiser Permanente volunteers. Kaiser Permanente also conducts evaluation of larger grant initiatives to understand both progress and outcomes. In addition to internal monitoring and evaluation, Kaiser Permanente requires grantees to propose, track, and report outcomes of the projects for which they have received funding.

The below tables provide highlights for a select number of programs, grants, collaboration and/or assets that aims to address the identified health needs for KFH-Modesto. The examples provided below are illustrations and not an exhaustive list. Where appropriate, summative information is provided for programs that have been implemented in multiple years.

The total number and amount of grants to address a health need include those that are awarded to organizations providing programs serving the KFH-Modesto service area and may also serve other KFH service areas.

In addition to the highlights outlined in the tables below to address specific health needs, Kaiser Permanente NCAL funded significant contributions to the East Bay Community Foundation (EBCF) in the interest of funding effective long-term, strategic community benefit initiatives. These EBCF-managed funds, however, are not included in the financial totals for 2022.

Need	Examples of most impactful efforts
<p><b>Access to Care</b></p>	<p><b>Medi-Cal and Charity Care:</b>                      In 2022, KFH-Modesto provided access to care to 50 Medi-Cal members and provided financial assistance to 5,615 people through the Medical Financial Assistance (MFA) program.</p>
	<p><b>Street Medicine Program:</b>                      The mission of the Golden Valley Health Centers is to improve the health of patients by providing quality, primary health care services regardless of language, financial or cultural barriers. Golden Valley Health Centers was awarded \$95,000 over 1 year. The Mobile Unit Implementation project will utilize a new mobile medicine to significantly increase access to care. The program will increase enrollment in coverage programs for low-income individuals/families without coverage by providing information and assisting with eligibility. This grant is expected to serve 2,800 individuals.</p>
	<p><b>211 Stanislaus County:</b>                      The mission of the United Way of Stanislaus County is to inspire unity and empower the community, connecting and strengthening organizations and individuals. United Way Of Stanislaus County was awarded \$25,000 over 1 year for Stanislaus County 211, a comprehensive information and referral program providing health and human service resources. This grant is expected to serve 100 low-income, under-resourced individuals who have barriers, such as language, lack of transportation, and poor health outcomes.</p>
<p><b>Mental and Behavioral Health</b></p>	<p><b>California Regional Model:</b>                      National Alliance on Mental Illness (NAMI) California provides leadership in advocacy, legislation, policy development, education, and support while advocating for lives of quality and respect without discrimination and stigma. NAMI California will develop a Regional Model to strengthen local affiliates by providing direct support and communication to build capacity and streamline services resulting in an increase in NAMI behavioral health programs within California. This is expected to serve 63,135 individuals, affiliates, and staff. (This partnership impacts 21 service areas across NCAL)</p>

Need	Examples of most impactful efforts
	<p><b>New Connections!:</b>                      The mission of Front Porch is to inspire and build community, cultivate meaningful relationships and experiences that respond creatively to changing needs. Front Porch's virtual social connection programs offer one-on-one and group interventions, reducing isolation and loneliness in older adults by providing a wide variety of easily accessible learning, social, and support options that leverage their interests and skills. The program will focus on increasing new Spanish-speaking registrants and users in Northern California. This is expected to serve 1,950 isolated older adults. (This partnership impacts 21 service areas across NCAL)</p> <p><b>North Modesto/ Salida (NMS) Behavioral Health Program:</b>                      The mission of Sierra Vista Child and Family Services is to strengthen families and communities by transforming lives. Sierra Vista Child &amp; Family Services was awarded \$90,000 over 1 year. NMS will provide direct mental and behavioral health services and connect individuals to health plans, prevention programs, and other community resources. This grant is expected to serve 150 ethnic and linguistically diverse underserved individuals ages 6-17 and adults who don't have insurance coverage.</p>
<p><b>Economic Security</b></p>	<p><b>Support for People Experiencing Homelessness in Modesto:</b>                      The mission of the Downtown Streets Team (DST) is to restore dignity, inspire hope, and support individuals who are homeless or at risk of becoming homeless. DST was awarded \$150,000 over 1 year for the Modesto program. This program will provide services to residents who are experiencing homelessness or at high risk of homelessness so that they can achieve self-sufficiency and finally end their experience of homelessness, including securing a permanent job and/or housing. This grant is expected to provide services to 60 residents.</p> <p><b>Referral Hub:</b>                      The mission of the Modesto Chamber of Commerce, Inc. is to serve regional businesses and community through advocacy, collaboration, access to leaders, economic development, connectivity, and business education. Modesto Chamber of Commerce, Inc. was awarded \$25,000 over 1 year. The Referral Hub will be a centralized point of contact with multi-stakeholder offerings, including funding and grants, business development, marketing and promotional training, and entrepreneurial counselors/mentors. This grant is expected to serve 500 individuals.</p>

Need	Examples of most impactful efforts
<p><b>Obesity, HEAL, Diabetes</b></p>	<p><b>Airport Neighbors in Action:</b>                      The mission of the Stanislaus County Police Activities League (PAL) is to provide proactive recreational, educational, cultural, and social programs for youth ages 6-18 in Stanislaus County. Stanislaus County PAL was awarded \$90,000 over 2 years. PAL Airport Neighbors in Action Project will serve residents near Oregon Park and Orville Wright Elementary. The project will develop a community garden to increase healthy eating education and improve physical/behavioral health through family-oriented and social connections. This grant is expected to serve 3,112 individuals.</p>
	<p><b>"Go Green for Seniors" Green Bag:</b>                      The mission of the Healthy Aging Association is to help older adults live longer, healthier, more independent lives by promoting increased physical activity and sound health and nutrition practices. The Healthy Aging Association was awarded \$25,000 over 1 year for the "Go Green for Seniors" Green Bag Program supporting the distribution of healthy food, with an emphasis on equity. This grant is expected to serve 350 low- to moderate-income older adults, especially those in rural communities.</p>
	<p><b>2022 Building Local Outreach Capacity for CalFresh Enrollment (BLOC) Cohort:</b>                      The mission of the Center for Human Services is to change lives and build futures through programs that strengthen and support youth and families. As one of 15 community-based organizations in the BLOC cohort, the Center for Human Services, Family Resource Center will increase awareness and access to CalFresh benefits, provide CalFresh program retention support and distribute information about nutrition on a budget in underserved communities and neighborhoods. The project will serve the underemployed/unemployed, households struggling financially, immigrant households concerned about public charge, senior citizens, and households in communities lacking access to affordable and nutritious food. This is expected to serve 1,200 individuals.</p>

# VI. Appendix

## Appendix A

### 2022 Community Benefits Provided by Hospital Service Area in California

NORTHERN CALIFORNIA HOSPITALS		SOUTHERN CALIFORNIA HOSPITALS	
Hospital	Amount	Hospital	Amount

## Appendix B

### Endnotes

- <sup>1</sup> Amount includes hospital-specific, unreimbursed expenditures for Medi-Cal Managed Care members and Medi-Cal Fee-for-Service beneficiaries on a cost basis.
- <sup>2</sup> Amount includes unreimbursed care provided to patients who qualify for Medical Financial Assistance on a cost basis.
- <sup>3</sup> Figures reported in this section for grants and donations consist of charitable contributions to community clinics and other safety-net providers and support access to care.
- <sup>4</sup> Applicable to only SCAL - Watts Counseling and Learning Center's service expenses are divided among three hospitals: KFH-Downey, KFH-South Bay, and KFH-West Los Angeles. Educational Outreach Program service expenses are only applicable to KFH-Baldwin Park.
- <sup>5</sup> Figures reported in this section are expenses for youth employment programs for under-represented populations.
- <sup>6</sup> Figures reported in this section for grants and donations consist of charitable contributions to community-based organizations that address the nonmedical needs of vulnerable populations.
- <sup>7</sup> The amount reflects the costs of the community benefit department and related operational expenses.
- <sup>8</sup> Figures reported in this section for grants and donations are aimed at supporting the general well-being of the broader community.
- <sup>9</sup> Amount reflects the net expenditures for training and education for medical residents, interns, and fellows.
- <sup>10</sup> Amount reflects the net expenditures for health professional education and training programs.
- <sup>11</sup> Figures reported in this section for grants and donations consist of charitable contributions made to external nonprofit organizations, colleges, and universities to support the training and education of students seeking to become health care professionals.
