I. Introduction and Background

A. About Kaiser Permanente

Founded in 1942 to serve employees of Kaiser Industries and opened to the public in 1945, Kaiser Permanente is recognized as one of America's leading health care providers and nonprofit health plans. We were created to meet the challenge of providing American workers with medical care during the Great Depression and World War II, when most people could not afford to go to a doctor. Since our beginnings, we have been committed to helping shape the future of health care. Among the innovations Kaiser Permanente has brought to U.S. health care are:

- Prepaid health plans, which spread the cost to make it more affordable
- A focus on preventing illness and disease as much as on caring for the sick
- An organized, coordinated system that puts as many services as possible under one roof—all connected by an electronic medical record

Kaiser Permanente is an integrated health care delivery system comprised of Kaiser Foundation Hospitals (KFH), Kaiser Foundation Health Plan (KFHP), and physicians in the Permanente Medical Groups. Today we serve approximately 12.6 million members in nine states and the District of Columbia. Our mission is to provide high-quality, affordable health care services and to improve the health of our members and the communities we serve.

Care for our members and patients is focused on their total health and guided by their personal physicians, specialists, and team of caregivers. Our expert and caring medical teams are empowered and supported by industry-leading technology advances and tools for health promotion, disease prevention, state-of-the-art care delivery, and world-class chronic disease management. Kaiser Permanente is dedicated to care innovations, clinical research, health education, and the support of community health.

B. About Kaiser Permanente Community Health

Kaiser Permanente is dedicated to providing high-quality, affordable health care services and to improving the health of our members and the communities we serve. We believe good health is a fundamental right shared by all and we recognize that good health extends beyond the doctor's office and the hospital. It begins with healthy environments: fresh fruits and vegetables in neighborhood stores, successful schools, clean air, accessible parks, and safe playgrounds. Good health for the entire community requires equity and social and economic well-being. These are the vital signs of healthy communities.

Better health outcomes begin where health starts, in our communities. Like our approach to medicine, our work in the community takes a prevention-focused, evidence-based approach. Our community health strategy focuses on three areas:

- Ensuring health access by providing individuals served at Kaiser Permanente or by our safety-net partners with integrated clinical and social services.
- Improving conditions for health and equity by engaging members, communities, and Kaiser Permanente's workforce and assets.
- Advancing the future of community health by innovating with technology and social solutions.

For many years, we've worked side-by-side with other organizations to address serious public health issues such as obesity, access to care, and violence. We've conducted Community Health Needs Assessments to better understand each community's unique needs and resources. The CHNA process informs our community investments and helps us develop strategies aimed at making long-term, sustainable change—and it allows us to deepen the strong relationships we have with other organizations that are working to improve community health. For information on the CHNA, please refer to the [2019 CHNA Report and the 2020-2022 Implementation Strategy Report](http://www.kp.org/chna) (<http://www.kp.org/chna>).

C. Purpose of the Report

Since 1996, Kaiser Foundation Hospitals (KFH) in Northern and Southern California (NCAL, SCAL) have annually submitted to the California Department of Health Care Access and Information (HCAI) a Consolidated Community Benefit Plan, commonly referred to as the SB 697 Report (for Senate Bill 697 which mandated its existence). This plan fulfills the annual year-end community benefit reporting regulations under California Health and Safety Code, Section 127340 et seq. The report provides detailed information and financial data on the Community Benefit programs, services, and activities provided by all KFH hospitals in California.

II. Overview and Description of Community Benefit Programs Provided

A. California Kaiser Foundation Hospitals Community Benefit Financial Contribution

In California, KFH owns and operates 36 hospitals: 21 community hospitals in Northern California and 15 in Southern California, all accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO). KFH hospitals are located in Anaheim, Antioch, Baldwin Park, Downey, Fontana, Fremont, Fresno, Irvine, Los Angeles, Manteca, Modesto, Moreno Valley, Oakland, Ontario, Panorama City, Redwood City, Richmond, Riverside, Roseville, Sacramento, San Diego, San Francisco, San Jose, San Leandro, San Rafael, Santa Clara, Santa Rosa, South Bay, South Sacramento, South San Francisco, Vacaville, Vallejo, Walnut Creek, West Los Angeles, and Woodland Hills.

In 2022, Kaiser Foundation Hospitals in Northern and Southern California Regions provided a total of \$1,056,168,474 in Community Benefit for a diverse range of community projects, medical care services, research, and training for health and medical professionals. These programs and services are organized in alignment with SB697 regulations:

- Medical Care Services for Vulnerable Populations
- Other Benefits for Vulnerable Populations
- Benefits for the Broader Community
- Health, Research, Education and Training

A breakdown of financial contributions is provided in Tables A. Note that 'non-quantifiable benefits' will be highlighted in the Year-End Results section of KFH Community Benefit Plan, where applicable.

Table A**2022 Community Benefits Provided by Kaiser Foundation Hospitals in California** (Endnotes in Appendix)

Category	Total Spend
Medical Care Services for Vulnerable Populations	
Medi-Cal shortfall ¹	\$610,762,280
Charity care: Charitable Health Coverage Programs	\$4,076
Charity care: Medical Financial Assistance Program ²	\$187,106,665

Grants and donations for the education of health care professionals ¹¹	\$1,024,087
Health research	\$35,040,218
Subtotal	\$181,227,448
TOTAL COMMUNITY BENEFITS PROVIDED	\$1,056,168,474

B. Medical Care Services for Vulnerable Populations

Medi-Cal

Kaiser Permanente provides coverage to Medi-Cal members in 22 counties in California through both direct contracts with the Department of Health Care Services (DHCS), and through delegated arrangements with other Medi-Cal managed care plans (MCPs). Kaiser Permanente also provides subsidized health care on a fee-for-service basis for Medi-Cal beneficiaries not enrolled as KFHP members. Reimbursement for some services is usually significantly below the cost of care and is considered subsidized care to non-member Medi-Cal fee-for-service patients.

Charitable Health Coverage

The Charitable Health Coverage program is a unique approach to caring for low-income uninsured persons in the community. The program provides a premium subsidy to low-income individuals and families who are not eligible for other public or privately sponsored coverage. Eligible participants receive a regular Health Plan membership card and have access to the same services and providers as other health plan individual and family plan members. Charitable Health Coverage Program members also receive cost sharing support that eliminates out of pocket costs for most covered services provided at Kaiser Permanente facilities.

Medical Financial Assistance

The Medical Financial Assistance program (MFA) helps low-income, uninsured, and underinsured patients receive access to care. The program provides temporary financial assistance or free care to patients who receive health care services from our providers, regardless of whether they have health coverage or are uninsured. The MFA program is one of the most generous in the health care industry and is available to those patients in greatest need.

C. Other Benefits for Vulnerable Populations

Watts Counseling and Learning Center (SCAL)

Since 1967, the Watts Counseling and Learning Center (WCLC) has been a valuable community resource for low-income, inner-city families in South Central Los Angeles. WCLC provides mental health and counseling services, educational assistance to children with learning disabilities, and a state-licensed and nationally accredited preschool program. Kaiser Permanente Health Plan membership is not required to receive these services and all services are offered in both English and Spanish. This program primarily serves the KFH-Downey, KFH-South Bay and KFH-West LA communities.

Educational Outreach Program (SCAL)

Since 1992, Educational Outreach Program (EOP) has been empowering children and their families through several year-round educational, counseling, and social programs. EOP helps individuals develop crucial life-skills to pursue higher education, live a healthier lifestyle through physical activity and proper nutrition, overcome mental obstacles by participating in counseling, and instill confidence to advocate for the community. EOP primarily serves the KFH-Baldwin Park community.

Youth Employment Programs (NCAL and SCAL)

Youth workforce programs such as the Summer Youth Employment Programs, IN-ROADS or KP LAUNCH focus on providing underserved diverse students with meaningful employment experiences in the health care field. Educational sessions and motivational workshops introduce them to the possibility of pursuing a career in health care while enhancing job skills and work performance. These programs serve as a pipeline for the organization and community-at-large, enhancing the future diversity of the health care workforce.

D. Benefits for the Broader Community

Community Health Education and Health Promotion Programs (NCAL and SCAL)

Health Education provides evidence-based clinically effective programs, printed materials, and training sessions to empower participants to build healthier lifestyles. This program incorporates tested models of behavior change, individual/group engagement and motivational interviewing as a language to elicit behavior change. Many of the programs and resources are offered in partnership with community-based organizations, and schools.

Kaiser Permanente Educational Theatre (NCAL and SCAL)

Celebrating over 35 years of service, Kaiser Permanente Educational Theatre has inspired and empowered millions of students and adults in communities across the United States to make healthy choices. Educational Theatre offers a wide range of award-winning theatrical productions and interactive workshops to schools throughout the Kaiser Permanente footprint.

Using the power of theatre and storytelling, our programs directly connect with students and adults through relatable characters and real-life situations. Audiences see themselves represented onstage in our culturally and ethnically diverse casts allowing them to connect with the narrative and educational messages in a meaningful way. Our team builds on this connection, inspiring students, and adults alike to make healthy choices and build stronger communities. Currently, there are 3 programs available in every Kaiser Permanente region.

E. Health Research, Education, and Training Programs

Graduate Medical Education (GME)

The Graduate Medical Education (GME) program provides training and education for medical residents and interns in the interest of educating the next generation of physicians. The program attracts some of the top medical school graduates in the United States and serves as a national model by exposing future health care providers to an integrated health care delivery system. Residents are offered the opportunity to serve a large, culturally diverse patient base in a setting with sophisticated technology and information systems, established clinical guidelines and an emphasis on preventive and primary care. The majority of medical residents are studying within the primary care medicine areas of family practice, internal medicine, ob/gyn, pediatrics, preventive medicine, and psychiatry.

Non-MD Provider Education and Training Programs

Kaiser Permanente provides education, training, residences, internships, and/or scholarships and stipends for non-physician health care professionals in nursing, pharmacy, physical therapy, psychology, and radiology. This includes Northern California Region's Kaiser Permanente School of Allied Health Sciences, which offers 18-month training programs in sonography, nuclear medicine, and radiation therapy and Southern California Region's Hippocrates Circle Program, which was designed to provide youth from under-represented communities and diverse backgrounds with an awareness of career opportunities as a physician.

Health Research

Kaiser Permanente's research efforts are core to the organization's mission to improve population health, and its commitment to continued learning. Kaiser Permanente researchers study critical health issues such as cancer, cardiovascular conditions, diabetes, behavioral and mental health, and health care delivery improvement. Kaiser Permanente's research is broadly focused on three themes: understanding health risks; addressing patients' needs and improving health outcomes; and informing policy and practice to facilitate the use of evidence-based care.

Kaiser Permanente is uniquely positioned to conduct research due to its rich, longitudinal, electronic clinical databases that capture virtually complete health care delivery, payment, decision-making and behavioral data across inpatient, outpatient, and to become health care professionals.

III. Community Served

A. Kaiser Permanente's Definition of Community Served

Kaiser Permanente defines the community served by a hospital as those individuals residing within its hospital service area. A hospital service area includes all residents in a defined geographic area surrounding the hospital and does not exclude low-income or underserved populations.

B. Demographic Profile of Community Served

[KFH-San Jose and Santa Cruz service area demographic profile](#)

	San Jose	Santa Cruz
Total population:	511,443	266,804
American Indian/Alaska Native	0.2%	0.4%
Asian	33.1%	4.7%
Black	2.5%	1.0%
Hispanic	30.9%	35.0%
Multiracial	3.4%	3.2%
Native Hawaiian/other Pacific Islander	0.3%	0.1%
Other race/ethnicity	0.2%	0.2%
White	29.5%	55.5%
Under age 18	24.2%	19.5%
Age 65 and over	13.9%	15.8%

C. Map and Description of Community Served

KFH-San Jose and Santa Cruz service area

 Kaiser Permanente hospital  Kaiser Permanente medical offices

The KFH-San Jose service area comprises roughly the southern half of Santa Clara County and all of Santa Cruz County and includes the major cities of Gilroy, Morgan Hill, Santa Cruz, Watsonville, and parts of San José.

IV. Description of Community Health Needs Addressed

The following are the health needs KFH-San Jose and Santa Cruz are addressing during the 2020-2022 Implementation Strategy period. For information about the process and criteria used to select these health needs and the health needs that were not selected (and the rationale), please review the [2019 CHNA Report and the 2020-2022 Implementation Strategy Report](http://www.kp.org/chna) (<http://www.kp.org/chna>).

A. Health Needs Addressed

1. Access to Care:

- Barriers to receiving quality care including lack of availability, high cost, lack of insurance coverage, limited English proficiency, and lack of provider cultural competence
- Concern with attracting and retaining staff (especially those who are bilingual) to work in the health care sector due to the high cost of living in the Bay Area
- Belief that undocumented immigrants have been accessing health care less often in recent years due to the political climate and fear of being identified and deported
- Fewer federally qualified health centers serve low-income residents locally vs. the state

Health care access and delivery was selected as a need to address because it tied for highest community prioritization score with the other three needs, tied for highest local assets score with the other three needs, tied for highest evidence-based or promising approaches score with HE/AL and Mental Health and Wellness, tied for highest organizational assets score with HE/AL, and given available resources, the Community Health Improvement Committee (CHIC) believes Kaiser Permanente can make an impact.

2. Mental and Behavioral Health:

- One of the needs about which the service area community expressed the strongest concern
- Lack of services, including preventative mental health and detox centers, a major concern
- Higher proportion of high school youth seriously considered suicide vs. statewide peers
- Ethnic disparities in rates of suicide, suicide attempts, mental health hospitalizations
- LGBTQ residents expressed need for mental health care and suicide prevention assistance
- Economic insecurity (including housing instability) a driver of poor behavioral health

Mental health and wellness was selected as a need to address because it tied for highest community prioritization score with the other three needs, tied for highest local assets score with the other three needs, and tied for highest evidence-based or promising approaches score with HE/AL and Access. In addition, there are significant organizational assets dedicated to it, and given available resources, the CHIC believes Kaiser Permanente can make an impact.

3. Healthy Eating and Active Living (HEAL):

- Includes access to food and recreation, diabetes, nutrition, diet, fitness, and obesity
- Concern regarding high rates of diabetes and obesity; diabetes prevalence trending up
- Community said increased stress and poverty contribute to diabetes and obesity
- Ethnic and gender disparities in diabetes management, obesity, youth physical activity
- Kids in the service area less likely to walk or bike to school than kids statewide
- Barriers to healthy eating: higher proportions of fast-food restaurants, lower proportions of grocery stores and WIC-authorized food stores vs. statewide

HEAL living was selected as a need to address because it tied for highest community prioritization score with the other three needs, tied for highest local assets score with the other three needs, and tied for highest evidence-based or promising approaches score with Access and Mental Health and Wellness. It also received the highest organizational assets score and the highest feasibility score.

4. Housing and Homelessness:

- Topic was the highest concern of community, including stress about high costs of housing
- Reports of increase in families seeking help from food banks, making difficult choices about how to spend remaining funds (food, medicine, health care, therapy, and housing)
- Reports of families moving within or exiting the area due to increased cost of living
- Significant ethnic disparities in income, a key factor driving housing instability
- Number of individuals & proportion of minors experiencing homelessness increased
- Lack of stable housing can prolong recovery time from diseases and surgical procedures
- Poor housing quality associated with asthma – asthma prevalence higher than state average

Homelessness was selected as a need to address because it tied for highest community prioritization score with the other three needs and tied for highest local assets score with the other three needs. In addition, there are several evidence-based or promising approaches to address it, and there are significant organizational assets dedicated to it.

B. Health Needs Not Addressed

1. Asthma: This need scored lower on CHNA priority and scored much lower on leveraging local assets and existence of evidence-based or promising approaches, compared to the four needs that were selected to be addressed. It also scored lower than two of the four chosen needs with regard to leveraging Kaiser Permanente assets.
2. Cancer: This need scored much lower on CHNA priority and leveraging local assets compared to the four needs that were selected to be addressed. It also scored lower than three of the four chosen needs with regard to both feasibility

and leveraging Kaiser Permanente assets.

3. Community and Family Safety: This need scored lower on CHNA priority and leveraging Kaiser Permanente assets, and scored much lower on evidence-based or promising approaches, compared to the four needs that were selected to be addressed. It also scored lower than three of the four chosen needs on feasibility.
4. Economic Security: This need scored lower on CHNA priority compared to the four needs that were selected to be addressed. Regarding evidence-based or promising approaches, leveraging Kaiser Permanente assets, and feasibility, it scored lower than three of the four chosen needs.
5. Environment: This need scored lower on all five selection criteria compared to the four needs that were selected to be addressed.
6. Transportation and Traffic: This need scored lower on four of the five selection criteria compared to the four needs that were selected to be addressed. Regarding the fifth criterion, evidence-based or promising approaches, it scored lower than three of the four chosen needs.

V. Year-End Results

A. Community Benefit Financial Resources

Total Community Benefit expenditures are reported as follows:

- Medical care services for vulnerable populations include unreimbursed inpatient costs for participation in Kaiser Permanente-subsidized and government-sponsored health care insurance programs.
- Since 2006, figures for subsidized products have been reported on a cost-basis (e.g., the difference of total revenues collected for services less direct and indirect expenses).
- Grant and donations are recorded in the general ledger in the appropriate amount and accounting period on an accrual, not cash basis. The amount reported reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures are not available, dollars are allocated to each hospital based on the percentage of KFHP members.
- The unreimbursed portion of medical, nursing, and other health care professional education and training costs are included.

Resource allocations are reported, as follows:

- Financial expenditures are reported in exact amounts, if available, by hospital service area.
- If exact financial expenditure amounts are not available by hospital service area, then regional expenses are allocated proportionally based on KFHP membership or other quantifiable data.

Table B**KFH-San Jose and Santa Cruz Community Benefits Provided in 2022** (Endnotes in Appendix)

Category	Total Spend
Medical Care Services for Vulnerable Populations	
Medi-Cal shortfall ¹	\$15,479,476
Charity care: Medical Financial Assistance Program ²	\$5,372,177
Grants and donations for medical services ³	\$4,732,500
Subtotal	\$25,584,153

Health research	\$1,597,936
Subtotal	\$7,519,245
TOTAL COMMUNITY BENEFITS PROVIDED	\$35,086,101

B. Examples of Activities to Address Selected Health Needs

All Kaiser Foundation Hospitals (KFH) carefully consider the evidence-base when determining which goals, strategies, and related activities would be most effective in addressing priority health needs. It is anticipated that successful implementation of key activities (programs, grants, collaboration, and/or in-kind assets), tied to key goals and strategies, can contribute toward improving the priority health needs in the community. For information on the goals and strategies that were selected for each health need, please refer to the [2019 CHNA Report and the 2020-2022 Implementation Strategy Report](http://www.kp.org/chna) (<http://www.kp.org/chna>).

Mechanisms for monitoring progress are tailored to each activity and may include the collection and documentation of tracking measures such as number of grants made, number of dollars spent, number of people reached/served, and number and role of Kaiser Permanente volunteers. Kaiser Permanente also conducts evaluation of larger grant initiatives to understand both progress and outcomes. In addition to internal monitoring and evaluation, Kaiser Permanente requires grantees to propose, track, and report outcomes of the projects for which they have received funding.

The below tables provide highlights for a select number of programs, grants, collaboration and/or assets that aims to address the identified health needs for KFH-San Jose and Santa Cruz. The examples provided below are illustrations and not an exhaustive list. Where appropriate, summative information is provided for programs that have been implemented in multiple years.

The total number and amount of grants to address a health need include those that are awarded to organizations providing programs serving the KFH-San Jose and Santa Cruz service area and may also serve other KFH service areas.

In addition to the highlights outlined in the tables below to address specific health needs, Kaiser Permanente NCAL funded significant contributions to the East Bay Community Foundation (EBCF) in the interest of funding effective long-term, strategic community benefit initiatives. These EBCF-managed funds, however, are not included in the financial totals for 2022.

Need	Examples of most impactful efforts
<p>Access to Care</p>	<p>Medi-Cal and Charity Care: In 2022, KFH-San Jose provided access to care to 13,436 Medi-Cal members and provided financial assistance to 3,779 people through the Medical Financial Assistance (MFA) program.</p>
	<p>Enhancing the Safety Net Workforce in Santa Clara and San Mateo Counties: The mission of the Community Health Partnerships (CHP) is to advocate for quality, affordable, accessible, and culturally competent health care systems that demonstrate respect and compassion for diverse communities. Enhancing the safety net workforce in Santa Clara and San Mateo counties will improve the quality of health and wellness services delivered to some of the most medically underserved communities of the Bay Area by strengthening the workforce of both CHP and partners. This is expected to serve 54 clinic staff. (This partnership impacts 4 service areas across NCAL)</p>
	<p>COVID-19 Vaccine Equity Outreach: The mission of the Sacred Heart Community Service is to build a community free from poverty by creating hope, opportunity, and action. Sacred Heart Community Service was awarded \$25,000 over 1 year to support COVID-19 vaccination and testing through outreach to vaccine-hesitant individuals and people who are at high risk due to poverty-related factors. This grant is expected to serve 12,000 individuals. (This grant impacts 2 service areas across NCAL)</p>
<p>Mental and Behavioral Health</p>	<p>Behavioral Health Screening and Care for Homeless Families and Individuals: The mission of LifeMoves is to provide services that enable homeless families and individuals to rapidly return to stable housing and long-term self-sufficiency. LifeMoves was awarded \$25,000 over 1 year for the BehavioralMoves Program. BehavioralMoves is expected to screen 600 homeless adults and children for behavioral health issues and connect them to free, on-site, real-time, evidence-based services that address trauma and other behavioral health concerns. (This grant impacts 2 service areas across NCAL)</p>

Need	Examples of most impactful efforts
	<p>California Regional Model: National Alliance on Mental Illness (NAMI) California provides leadership in advocacy, legislation, policy development, education and support while advocating for lives of quality and respect without discrimination and stigma. NAMI California will develop a Regional Model to strengthen local affiliates by providing direct support and communication to build capacity and streamline services resulting in an increase in NAMI behavioral health programs within California. This is expected to serve 63,135 individuals, affiliates, and staff. (This project impacts 21 service areas across NCAL)</p> <p>New Connections!: The mission of Front Porch is to inspire and build community, cultivate meaningful relationships and experiences that respond creatively to changing needs. Front Porch's virtual social connection programs offer one-on-one and group interventions, reducing isolation and loneliness in older adults by providing a wide variety of easily accessible learning, social, and support options that leverage their interests and skills. The program will focus on increasing new Spanish-speaking registrants and users in Northern California. This is expected to serve 1,950 isolated older adults. (This impacts 21 service areas across NCAL)</p>
<p>Healthy Eating and Active Living</p>	<p>2022 Building Local Outreach Capacity for CalFresh Enrollment (BLOC) Cohort: The mission of the Second Harvest Food Bank of Santa Clara and San Mateo counties is to lead the community to ensure that anyone who needs a healthy meal can get one. As one of 15 community-based organizations in the BLOC cohort, Second Harvest will increase CalFresh enrollment and usage among low-income residents, medical patients, college students, and unhoused populations. This will provide outreach to approximately 1,350 clients. (This project impacts 4 service areas in NCAL)</p> <p>Milpitas Food Pantry: The mission of the Milpitas Food Pantry is to provide emergency food and food assistance to those in need. Milpitas Food Pantry was awarded \$25,000 over 1 year to serve the needs of Milpitas and Alviso communities. This grant is expected to serve 2,000 low-income individuals and families. (This grant impacts 2 service areas across NCAL)</p>

Need	Examples of most impactful efforts
	<p>Double Up Food Bucks California - Healthy Food Incentives: The mission of the San Francisco Planning and Urban Research (SPUR) is to engage in research, education, and advocacy to create an equitable, sustainable, and prosperous community. SPUR was awarded \$25,000 over 1 year. SPUR’s Double Up Food Bucks program reduces hunger and improves health by increasing low-income families’ purchasing power for healthy food at grocery stores in Santa Clara County. This grant is expected to serve 9,000 low-income families. (This grant impacts 2 service areas across NCAL)</p>
<p>Housing and Homelessness</p>	<p>Technical Assistance for Homekey 2.0 Applicants and Grantees: The mission of Enterprise Community Partners, Inc. is to make home and community places of pride, power, belonging, and platforms for resilience and upward mobility for all. Enterprise Community Partners, Inc. was awarded \$750,000 over 1 year. Homekey is a statewide effort to sustain and rapidly expand housing for persons experiencing homelessness or at risk of homelessness. Enterprise Community Partners will provide technical assistance to Homekey applicants, including state, regional, and local public entities, to ensure successful applications and implementation of supportive housing. This grant is expected to provide 1,400 housing units. (This grant impacts 21 service areas across NCAL)</p>
	<p>Housing Flex Fund - Housing and Homelessness Prevention: The mission of Abode Services is to end homelessness by assisting low-income people, including those with special needs, to secure stable, supportive housing, and to advocate for the removal of the causes of homelessness. Abode Services serves six San Francisco Bay Area counties, including Alameda, Santa Clara, Santa Cruz, San Francisco, San Mateo, and Napa. Abode Services was awarded \$25,000 over 1 year to support its Housing Flex Fund for permanent supportive housing and permanent housing in the region. This grant is expected to serve 300 individuals and families. (This grant impacts 2 service areas across NCAL)</p>
	<p>Safe & Healthy Housing: Rebuilding Together Silicon Valley works on repairing homes, revitalizing communities, rebuilding lives. Rebuilding Together Silicon Valley was awarded \$25,000 over 1 year. The Safe and Healthy Housing initiative will improve the health, safety, and overall well-being of low-income Santa Clara County homeowners by performing critical home repairs and accessibility modifications. This grant is expected to serve 600 unhoused individuals and families. (This grant impacts 2 service areas)</p>
