I. Introduction and Background

A. About Kaiser Permanente

Founded in 1942 to serve employees of Kaiser Industries and opened to the public in 1945, Kaiser Permanente is recognized as one of America's leading health care providers and nonprofit health plans. We were created to meet the challenge of providing American workers with medical care during the Great Depression and World War II, when most people could not afford to go to a doctor. Since our beginnings, we have been committed to helping shape the future of health care. Among the innovations Kaiser Permanente has brought to U.S. health care are:

- Prepaid health plans, which spread the cost to make it more affordable
- A focus on preventing illness and disease as much as on caring for the sick
- An organized, coordinated system that puts as many services as possible under one roof—all connected by an electronic medical record

Kaiser Permanente is an integrated health care delivery system comprised of Kaiser Foundation Hospitals (KFH), Kaiser Foundation Health Plan (KFHP), and physicians in the Permanente Medical Groups. Today we serve approximately 12.6 million members in nine states and the District of Columbia. Our mission is to provide high-quality, affordable health care services and to improve the health of our members and the communities we serve.

Care for our members and patients is focused on their total health and guided by their personal physicians, specialists, and team of caregivers. Our expert and caring medical teams are empowered and supported by industry-leading technology advances and tools for health promotion, disease prevention, state-of-the-art care delivery, and world-class chronic disease management. Kaiser Permanente is dedicated to care innovations, clinical research, health education, and the support of community health.

B. About Kaiser Permanente Community Health

Kaiser Permanente is dedicated to providing high-quality, affordable health care services and to improving the health of our members and the communities we serve. We believe good health is a fundamental right shared by all and we recognize that good health extends beyond the doctor's office and the hospital. It begins with healthy environments: fresh fruits and vegetables in neighborhood stores, successful schools, clean air, accessible parks, and safe playgrounds. Good health for the entire community requires equity and social and economic well-being. These are the vital signs of healthy communities.

Better health outcomes begin where health starts, in our communities. Like our approach to medicine, our work in the community takes a prevention-focused, evidence-based approach. Our community health strategy focuses on three areas:

- Ensuring health access by providing individuals served at Kaiser Permanente or by our safety-net partners with integrated clinical and social services.
- Improving conditions for health and equity by engaging members, communities, and Kaiser Permanente's workforce and assets.
- Advancing the future of community health by innovating with technology and social solutions.

For many years, we've worked side-by-side with other organizations to address serious public health issues such as obesity, access to care, and violence. We've conducted Community Health Needs Assessments to better understand each community's unique needs and resources. The CHNA process informs our community investments and helps us develop strategies aimed at making long-term, sustainable change—and it allows us to deepen the strong relationships we have with other organizations that are working to improve community health. For information on the CHNA, please refer to the [2019 CHNA Report and the 2020-2022 Implementation Strategy Report](http://www.kp.org/chna) (<http://www.kp.org/chna>).

C. Purpose of the Report

Since 1996, Kaiser Foundation Hospitals (KFH) in Northern and Southern California (NCAL, SCAL) have annually submitted to the California Department of Health Care Access and Information (HCAI) a Consolidated Community Benefit Plan, commonly referred to as the SB 697 Report (for Senate Bill 697 which mandated its existence). This plan fulfills the annual year-end community benefit reporting regulations under California Health and Safety Code, Section 127340 et seq. The report provides detailed information and financial data on the Community Benefit programs, services, and activities provided by all KFH hospitals in California.

II. Overview and Description of Community Benefit Programs Provided

A. California Kaiser Foundation Hospitals Community Benefit Financial Contribution

In California, KFH owns and operates 36 hospitals: 21 community hospitals in Northern California and 15 in Southern California, all accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO). KFH hospitals are located in Anaheim, Antioch, Baldwin Park, Downey, Fontana, Fremont, Fresno, Irvine, Los Angeles, Manteca, Modesto, Moreno Valley, Oakland, Ontario, Panorama City, Redwood City, Richmond, Riverside, Roseville, Sacramento, San Diego, San Francisco, San Jose, San Leandro, San Rafael, Santa Clara, Santa Rosa, South Bay, South Sacramento, South San Francisco, Vacaville, Vallejo, Walnut Creek, West Los Angeles, and Woodland Hills.

In 2022, Kaiser Foundation Hospitals in Northern and Southern California Regions provided a total of \$1,056,168,474 in Community Benefit for a diverse range of community projects, medical care services, research, and training for health and medical professionals. These programs and services are organized in alignment with SB697 regulations:

- Medical Care Services for Vulnerable Populations
- Other Benefits for Vulnerable Populations
- Benefits for the Broader Community
- Health, Research, Education and Training

A breakdown of financial contributions is provided in Tables A. Note that 'non-quantifiable benefits' will be highlighted in the Year-End Results section of KFH Community Benefit Plan, where applicable.

Table A**2022 Community Benefits Provided by Kaiser Foundation Hospitals in California** (Endnotes in Appendix)

Category	Total Spend
Medical Care Services for Vulnerable Populations	
Medi-Cal shortfall ¹	\$610,762,280
Charity care: Charitable Health Coverage Programs	\$4,076
Charity care: Medical Financial Assistance Program ²	\$187,106,665
Grants and donations for medical services ³	\$24,435,416
Subtotal	\$822,308,437
Other Benefits for Vulnerable Populations	
Watts Counseling and Learning Center ⁴	\$3,398,981
Educational Outreach Program ⁴	\$839,692
Youth Employment programs ⁵	\$2,901,906
Grants and donations for community-based programs ⁶	\$14,526,431
Community Benefit administration and operations ⁷	\$13,731,405
Subtotal	\$35,398,415
Benefits for the Broader Community	
Community health education and promotion programs	\$1,151,767
Community Giving Campaign administrative expenses	\$667,281
Grants and donations for the broader community ⁸	\$14,672,431
National Board of Directors fund	\$742,694
Subtotal	\$17,234,173
Health Research, Education, and Training	
Graduate Medical Education ⁹	\$113,244,627
Non-MD provider education and training programs ¹⁰	\$31,918,517
Grants and donations for the education of health care professionals ¹¹	\$1,024,087
Health research	\$35,040,218
Subtotal	\$181,227,448
TOTAL COMMUNITY BENEFITS PROVIDED	\$1,056,168,474

B. Medical Care Services for Vulnerable Populations

Medi-Cal

Kaiser Permanente provides coverage to Medi-Cal members in 22 counties in California through both direct contracts with the Department of Health Care Services (DHCS), and through delegated arrangements with other Medi-Cal managed care plans (MCPs). Kaiser Permanente also provides subsidized health care on a fee-for-service basis for Medi-Cal beneficiaries not enrolled as KFHP members. Reimbursement for some services is usually significantly below the cost of care and is considered subsidized care to non-member Medi-Cal fee-for-service patients.

Charitable Health Coverage

The Charitable Health Coverage program is a unique approach to caring for low-income uninsured persons in the community. The program provides a premium subsidy to low-income individuals and families who are not eligible for other public or privately sponsored coverage. Eligible participants receive a regular Health Plan membership card and have access to the same services and providers as other health plan individual and family plan members. Charitable Health Coverage Program members also receive cost sharing support that eliminates out of pocket costs for most covered services provided at Kaiser Permanente facilities.

Medical Financial Assistance

The Medical Financial Assistance program (MFA) helps low-income, uninsured, and underinsured patients receive access to care. The program provides temporary financial assistance or free care to patients who receive health care services from our providers, regardless of whether they have health coverage or are uninsured. The MFA program is one of the most generous in the health care industry and is available to those patients in greatest need.

C. Other Benefits for Vulnerable Populations

Watts Counseling and Learning Center (SCAL)

Since 1967, the Watts Counseling and Learning Center (WCLC) has been a valuable community resource for low-income, inner-city families in South Central Los Angeles. WCLC provides mental health and counseling services, educational assistance to children with learning disabilities, and a state-licensed and nationally accredited preschool program. Kaiser Permanente Health Plan membership is not required to receive these services and all services are offered in both English and Spanish. This program primarily serves the KFH-Downey, KFH-South Bay and KFH-West LA communities.

Educational Outreach Program (SCAL)

Since 1992, Educational Outreach Program (EOP) has been empowering children and their families through several year-round educational, counseling, and social programs. EOP helps individuals develop crucial life-skills to pursue higher education, live a healthier lifestyle through physical activity and proper nutrition, overcome mental obstacles by participating in counseling, and instill confidence to advocate for the community. EOP primarily serves the KFH-Baldwin Park community.

Youth Employment Programs (NCAL and SCAL)

Youth workforce programs such as the Summer Youth Employment Programs, IN-ROADS or KP LAUNCH focus on providing underserved diverse students with meaningful employment experiences in the health care field. Educational sessions and motivational workshops introduce them to the possibility of pursuing a career in health care while enhancing job skills and work performance. These programs serve as a pipeline for the organization and community-at-large, enhancing the future diversity of the health care workforce.

D. Benefits for the Broader Community

Community Health Education and Health Promotion Programs (NCAL and SCAL)

Health Education provides evidence-based clinically effective programs, printed materials, and training sessions to empower participants to build healthier lifestyles. This program incorporates tested models of behavior change, individual/group engagement and motivational interviewing as a language to elicit behavior change. Many of the programs and resources are offered in partnership with community-based organizations, and schools.

Kaiser Permanente Educational Theatre (NCAL and SCAL)

Celebrating over 35 years of service, Kaiser Permanente Educational Theatre has inspired and empowered millions of students and adults in communities across the United States to make healthy choices. Educational Theatre offers a wide range of award-winning theatrical productions and interactive workshops to schools throughout the Kaiser Permanente footprint.

Using the power of theatre and storytelling, our programs directly connect with students and adults through relatable characters and real-life situations. Audiences see themselves represented onstage in our culturally and ethnically diverse casts allowing them to connect with the narrative and educational messages in a meaningful way. Our team builds on this connection, inspiring students, and adults alike to make healthy choices and build stronger communities. Currently, there are 3 programs available in every Kaiser Permanente region.

E. Health Research, Education, and Training Programs

Graduate Medical Education (GME)

The Graduate Medical Education (GME) program provides training and education for medical residents and interns in the interest of educating the next generation of physicians. The program attracts some of the top medical school graduates in the United States and serves as a national model by exposing future health care providers to an integrated health care delivery system. Residents are offered the opportunity to serve a large, culturally diverse patient base in a setting with sophisticated technology and information systems, established clinical guidelines and an emphasis on preventive and primary care. The majority of medical residents are studying within the primary care medicine areas of family practice, internal medicine, ob/gyn, pediatrics, preventive medicine, and psychiatry.

Non-MD Provider Education and Training Programs

Kaiser Permanente provides education, training, residences, internships, and/or scholarships and stipends for non-physician health care professionals in nursing, pharmacy, physical therapy, psychology, and radiology. This includes Northern California Region's Kaiser Permanente School of Allied Health Sciences, which offers 18-month training programs in sonography, nuclear medicine, and radiation therapy and Southern California Region's Hippocrates Circle Program, which was designed to provide youth from under-represented communities and diverse backgrounds with an awareness of career opportunities as a physician.

Health Research

Kaiser Permanente's research efforts are core to the organization's mission to improve population health, and its commitment to continued learning. Kaiser Permanente researchers study critical health issues such as cancer, cardiovascular conditions, diabetes, behavioral and mental health, and health care delivery improvement. Kaiser Permanente's research is broadly focused on three themes: understanding health risks; addressing patients' needs and improving health outcomes; and informing policy and practice to facilitate the use of evidence-based care.

Kaiser Permanente is uniquely positioned to conduct research due to its rich, longitudinal, electronic clinical databases that capture virtually complete health care delivery, payment, decision-making and behavioral data across inpatient, outpatient, and to become health care professionals.

III. Community Served

A. Kaiser Permanente's Definition of Community Served

Kaiser Permanente defines the community served by a hospital as those individuals residing within its hospital service area. A hospital service area includes all residents in a defined geographic area surrounding the hospital and does not exclude low-income or underserved populations.

B. Demographic Profile of Community Served

[KFH-Vallejo service area demographic profile](#)

Total population:	281,811
American Indian/Alaska Native	0.4%
Asian	16.1%
Black	10.5%
Hispanic	29.0%
Multiracial	4.0%
Native Hawaiian/other Pacific Islander	0.6%
Other race/ethnicity	0.2%
White	39.2%
Under age 18	20.7%
Age 65 and over	17.4%

SOURCE: AMERICAN COMMUNITY SURVEY, 2015-2019

C. Map and Description of Community Served

KFH-Vallejo service area

 Kaiser Permanente hospital  Kaiser Permanente medical offices

The KFH-Vallejo service area includes communities in Napa and Solano counties. The major communities are Benicia and Vallejo in Solano County and American Canyon, Calistoga, Napa, Oakville, Rutherford, St. Helena, and Yountville in Napa County. The service area is further defined by Highway 29 leading from Vallejo to Napa and Interstate 80 in Solano County.

IV. Description of Community Health Needs Addressed

The following are the health needs KFH-Vallejo is addressing during the 2020-2022 Implementation Strategy period. For information about the process and criteria used to select these health needs and the health needs that were not selected (and the rationale), please review the [2019 CHNA Report and the 2020-2022 Implementation Strategy Report](http://www.kp.org/chna) (<http://www.kp.org/chna>).

A. Health Needs Addressed

1. **Mental and Behavioral Health:** Behavioral health is the foundation for healthy living and encompasses mental illness, substance use and overdoses, and access to service providers for preventive care and treatment. This health need was recommended for selection by the Community Health Investment Committee (CHIC) because it received a high score across all selection criteria, most notably feasibility and the ability to leverage organizational assets.
2. **Community and Family Safety** (Violence & Injury Prevention in the CHNA): Direct and indirect exposure to violence and injury, such as domestic and community violence, have significant effects on well-being and health. This health need was recommended for selection by the CHIC because it received a high score across all selection criteria, most notably the Vallejo prioritization score, feasibility, and disparities/equity.
3. **Economic Opportunity:** Economic security means having the financial resources, public supports, career and educational opportunities, and housing necessary to be able to live your fullest life. Intrinsically related to all health issues, from housing to behavioral health, economic security is a strong determinant of an individual's health outcomes. This health need was recommended for selection by the CHIC because it received a high score across all selection criteria, most notably the Vacaville and Vallejo prioritization scores, feasibility, and disparities/equity.
4. **Access to Care:** Access to quality health care includes affordable health insurance, use of preventive care, and ultimately reduced risk of unnecessary disability and premature death. Importantly, it is also one of the key drivers in achieving health equity. This health need was recommended for selection by the CHIC because it received a high score across all selection criteria, most notably feasibility and disparities/equity.

B. Health Needs Not Addressed

1. **Housing:** This health need was not selected because, compared to other health needs, it scored relatively lower on the following criteria: disparities, leveraging organizational assets, and feasibility. The strategies identified within Economic Security will largely address the need associated with Housing. In addition, there is significant existing attention and resources dedicated to addressing this issue in the community.

2. Education: This health need was not selected because, compared to other health needs, it scored relatively lower on the ability to leverage organizational assets. Significant attention and resources in the service area are currently dedicated to addressing this health need within Economic Security implementation strategies, especially in the secondary education system by supporting programs providing mentorship and educational support systems for high school students and disconnected youth.
3. Healthy Eating and Active Living (HEAL): This health need was not selected because, compared to other health needs, it scored relatively lower on disparities and leveraging organizational assets. Significant attention and resources in the service area are currently dedicated to this need around the issues of reducing food insecurity, providing access to healthy food, and increasing access to safe parks and outdoor spaces.
4. Maternal and Infant Health: This health need was not selected because, compared to other health needs, it scored relatively lower on disparities and leveraging organizational assets. The strategies identified within Access to Care will largely address the challenges specific to the population of mothers and young children.

V. Year-End Results

A. Community Benefit Financial Resources

Total Community Benefit expenditures are reported as follows:

- Medical care services for vulnerable populations include unreimbursed inpatient costs for participation in Kaiser Permanente-subsidized and government-sponsored health care insurance programs.
- Since 2006, figures for subsidized products have been reported on a cost-basis, (e.g., the difference of total revenues collected for services less direct and indirect expenses).
- Grant and donations are recorded in the general ledger in the appropriate amount and accounting period on an accrual, not cash basis. The amount reported reflects hospital-specific, unreimbursed expenditures. When hospital-specific expenditures are not available, dollars are allocated to each hospital based on the percentage of KFHP members.
- The unreimbursed portion of medical, nursing, and other health care professional education and training costs are included.

Resource allocations are reported, as follows:

- Financial expenditures are reported in exact amounts, if available, by hospital service area.
- If exact financial expenditure amounts are not available by hospital service area, then regional expenses are allocated proportionally based on KFHP membership or other quantifiable data.

Table B**KFH-Vallejo Community Benefits Provided in 2022** (Endnotes in Appendix)

Category	Total
Medical Care Services for Vulnerable Populations	
Medi-Cal shortfall ¹	\$18,736,614
Charity care: Medical Financial Assistance Program ²	\$4,981,188
Grants and donations for medical services ³	\$137,500
Subtotal	\$23,855,302
Other Benefits for Vulnerable Populations	
Youth Employment programs ⁵	\$94,423
Grants and donations for community-based programs ⁶	\$227,963

Subtotal	\$593,345
Benefits for the Broader Community	
Community Giving Campaign administrative expenses	\$18,149
Grants and donations for the broader community ⁸	\$510,104
National Board of Directors fund	\$15,210
Subtotal	\$543,463
Health Research, Education, and Training	
Graduate Medical Education ⁹	\$2,580,227
Non-MD provider education and training programs ¹⁰	\$2,962,904
Health research	\$1,083,488
Subtotal	\$6,626,619
TOTAL COMMUNITY BENEFITS PROVIDED	\$31,618,729

B. Examples of Activities to Address Selected Health Needs

All Kaiser Foundation Hospitals (KFH) carefully consider the evidence-base when determining which goals, strategies, and related activities would be most effective in addressing priority health needs. It is anticipated that successful implementation of key activities (programs, grants, collaboration, and/or in-kind assets), tied to key goals and strategies, can contribute toward improving the priority health needs in the community. For information on the goals and strategies that were selected for each health need, please refer to the [2019 CHNA Report and the 2020-2022 Implementation Strategy Report](http://www.kp.org/chna) (<http://www.kp.org/chna>).

Mechanisms for monitoring progress are tailored to each activity and may include the collection and documentation of tracking measures such as number of grants made, number of dollars spent, number of people reached/served, and number and role of Kaiser Permanente volunteers. Kaiser Permanente also conducts evaluation of larger grant initiatives to understand both progress and outcomes. In addition to internal monitoring and evaluation, Kaiser Permanente requires grantees to propose, track, and report outcomes of the projects for which they have received funding.

The below tables provide highlights for a select number of programs, grants, collaboration and/or assets that aims to address the identified health needs for KFH-Vallejo. The examples provided below are illustrations and not an exhaustive list. Where appropriate, summative information is provided for programs that have been implemented in multiple years.

The total number and amount of grants to address a health need include those that are awarded to organizations providing programs serving the KFH-Vallejo service area and may also serve other KFH service areas.

In addition to the highlights outlined in the tables below to address specific health needs, Kaiser Permanente NCAL funded significant contributions to the East Bay Community Foundation (EBCF) in the interest of funding effective long-term, strategic community benefit initiatives. These EBCF-managed funds, however, are not included in the financial totals for 2022.

Need	Examples of most impactful efforts
<p>Access to Care</p>	<p>Medi-Cal and Charity Care: In 2022, KFH-Vallejo provided access to care to 24,542 Medi-Cal members and provided financial assistance to 3,882 people through the Medical Financial Assistance (MFA) program.</p>
	<p>Increasing Coverage and Access to Care: The mission of the Community Health Initiative Napa County, Inc. is to improve the health of children, families, and seniors by providing access to care through health insurance enrollment, patient education, and advocacy. Community Health Initiative Napa County, Inc. was awarded \$50,000 over 1 year. This will increase coverage and access to care by providing outreach to enroll residents of Napa and Solano counties into subsidized health coverage and provide case management services. This grant is expected to serve 9,350 individuals. (This grant impacts 2 service areas across NCAL)</p>
	<p>Donated Surgical and Specialty Care: The mission of Operation Access (OA) is to enable local health providers to donate surgical and specialty care to people in need. OA coordinates essential health services that will restore health, return people to work, and improve the quality of life for people with few alternatives for care. OA's project will provide donated surgical and specialty care for low-income and uninsured Northern California adults. This project is expected to serve 1,000 patients through care coordination and surgery. (This partnership impacts 13 service areas across NCAL)</p>
<p>Community and Family Safety (Violence & Injury Prevention)</p>	<p>Helping Children Recover from the Traumas of COVID-19: The Leaven's mission is to increase academic achievements, self-esteem, and life opportunities for children living in low-income, urban communities by showing love, care, and compassion. Leaven Program was awarded \$25,000 over 1 year. The grant will provide a safe and engaging environment for 100 elementary school students in Vallejo, Vacaville, and Fairfield to catch up to or surpass educational benchmarks and learn about career paths. (This grant impacts 2 service areas across NCAL)</p>
	<p>Napa Emergency Women's Services (NEWS): The mission of the Monarch Justice Center is to ease the burden that systems and lack of access to resources place on survivors of domestic violence, human trafficking, elder abuse, and sexual assault. As one of 12 community-based organizations in the NCAL Family Justice Center Cohort, the Monarch Justice Center will provide a safe and therapeutic space to improve survivor experience and outcomes and improve organizational collaboration among systems and agencies to increase accountability of service providers to constituents. This project is expected to serve 100 people.</p>

Need	Examples of most impactful efforts
	<p>Healing Victims of Crime, Long-Term Stress, Intergenerational Trauma, and Racism: The Solano Family Justice Center (SFJC) provides a safe and welcoming environment where individuals and families benefit from comprehensive services offered at one location. As one of 12 community-based organizations in the NCAL Family Justice Center Cohort, the Healing Victims of Crime, Long-Term Stress, Intergenerational Trauma, and Racism program at the SFJC will utilize skilled practitioners to address the immediate needs of people who experienced crime. The program will also provide education, information, and resources for long-term stress, adverse childhood experiences, intergenerational trauma, and experiences of racism. This project is expected to serve 800 people. (This partnership impacts 2 service areas across NCAL)</p>
<p>Economic Security</p>	<p>Resource Connect Solano: The mission of Caminar is to empower and support individuals and families to move toward resilience, wellness, and independence. Caminar was awarded \$200,000 over 2 years. Caminar’s Resource Connect Solano leads community-wide communication, collaboration, and coordination to assist unhoused community members. This grant will increase rental assistance for 2,000 housing-insecure and unhoused individuals and families. (This grant impacts 2 service areas across NCAL)</p>
	<p>Improving Health and Economic Security for Low-Income Californians: The mission of the Golden State Opportunity Foundation (GSO) is to help low-income Californians increase their financial stability and overall health and well-being. GSO was awarded \$80,000 over 1 year. GSO will help increase participation in the California Earned Income Tax Credit (CalEITC) and federal tax credits by reaching low-income families; expand the partner network and local presence, particularly in the Bay Area and Central Valley; and engage priority communities such as immigrants without Social Security numbers, Black women and single mothers, and people who have a primary language other than English. (This grant impacts 21 service areas across NCAL)</p>
	<p>Ready, Set, Work - Connecting Teens to Great Futures: The mission of Boys & Girls Clubs of Napa Valley is to inspire and enable all young people, especially those who need us most, to reach their full potential as productive, caring, responsible citizens. Boys And Girls Clubs of Napa Valley was awarded \$56,000 over 1.5 years. The Ready, Set, Work Program will provide teens with academic advising, career exploration, skill development workshops, work experience, mentorship, and internships with local business leaders, all while creating rewarding employment solutions for local businesses. This grant is expected to serve 65 adolescents.</p>

Need	Examples of most impactful efforts
<p>Mental and Behavioral Health</p>	<p>Trauma-Informed District Initiative: The mission of the Vallejo City Unified School District is to meet or exceed goals equity, excellence, educational effectiveness, and economic sustainability. Vallejo City Unified School District was awarded \$25,000 over 9 months to begin the district-wide Trauma-Informed Initiative implementing restorative practices at Highland Elementary School. All administrators, staff, and paraprofessionals will be trained and supported by utilizing Kaiser Permanente Thriving School tools, such as The Resilience in School Environments (RISE) Index. This grant is expected to serve 70 district staff.</p>
	<p>California Regional Model: National Alliance on Mental Illness (NAMI) California provides leadership in advocacy, legislation, policy development, education and support while advocating for lives of quality and respect without discrimination and stigma. NAMI California will develop a Regional Model to strengthen local affiliates by providing direct support and communication to build capacity and streamline services resulting in an increase in NAMI behavioral health programs within California. This partnership is expected to serve 63,135 individuals, affiliates, and staff. (This project impacts 21 service areas across NCAL)</p>
	<p>New Connections!: The mission of Front Porch is to inspire and build community, cultivate meaningful relationships and experiences that respond creatively to changing needs. Front Porch's virtual social connection programs offer one-on-one and group interventions, reducing isolation and loneliness in older adults by providing a wide variety of easily accessible learning, social, and support options that leverage their interests and skills. The program will focus on increasing new Spanish-speaking registrants and users in Northern California. This partnership is expected to serve 1,950 isolated older adults. (This project impacts 21 service areas across NCAL)</p>

Appendix B

Endnotes

- ¹ Amount includes hospital-specific, unreimbursed expenditures for Medi-Cal Managed Care members and Medi-Cal Fee-for-Service beneficiaries on a cost basis.
- ² Amount includes unreimbursed care provided to patients who qualify for Medical Financial Assistance on a cost basis.
- ³ Figures reported in this section for grants and donations consist of charitable contributions to community clinics and other safety-net providers and support access to care.
- ⁴ Applicable to only SCAL - Watts Counseling and Learning Center's service expenses are divided among three hospitals: KFH-Downey, KFH-South Bay, and KFH-West Los Angeles. Educational Outreach Program service expenses are only applicable to KFH-Baldwin Park.
- ⁵ Figures reported in this section are expenses for youth employment programs for under-represented populations.
- ⁶ Figures reported in this section for grants and donations consist of charitable contributions to community-based organizations that address the nonmedical needs of vulnerable populations.
- ⁷ The amount reflects the costs of the community benefit department and related operational expenses.
- ⁸ Figures reported in this section for grants and donations are aimed at supporting the general well-being of the broader community.
